

# Fresh by Design™ Refrigeration, **reinvented.**

## Introducing the all-new **FarmFresh System™** by Bosch

The revolutionary FarmFresh System™ combines four innovative technologies designed to take food preservation to the next level, while minimizing food waste.

### **VitaFreshPro™**

An industry first, VitaFreshPro™ automatically balances BOTH temperature and humidity levels based on the food setting. From produce to meats to cheeses, pre-programmed settings calibrate the optimal environment, removing the guesswork from food storage.

### **FreshProtect™**

FreshProtect™ filter absorbs naturally occurring ethylene to slow ripening in produce sensitive to these gases. Designed to help fruits and vegetables like strawberries, apples, asparagus, and lettuce stay fresher, longer.

### **AirFresh® filter**

Keep your refrigerator and freezer air fresh, all while absorbing even the toughest food odors. Never worry about a replacement—the AirFresh® filter is built to last the lifetime of your refrigerator.

### **MultiAirFlow™**

With MultiAirFlow™, evenly circulate cool, fresh air to maintain consistent temperatures throughout the entire fridge cavity, from door bins to back corners.
