Double Sided

Energizer®

SMART WIFI INDOOR POWER

™

QUICK START GUIDE
v1.1

GETTING STARTED

Thank you for choosing the *Energizer®* Smart Device. This quick start guide will help you with setup and installation.

This manual covers general pairing/use and instructions for our Smart Indoor Power Devices.

Package Includes:
- Smart Device
- Quick Start Guide

ESTIMATED SETUP
5-10 minutes

What You Need:

App   2.4GHz WiFi

2.4GHz ✓   5GHz ✗

⚠ Before setup, make sure your phone is connected to the 2.4GHz WiFi network that your device will be placed on. You should turn on location and Bluetooth to find nearby networks.

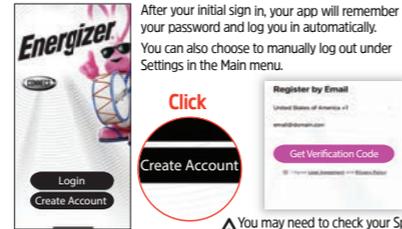

CONNECT THE DEVICE

STEP 1

Download the free *Energizer®* Connect app from the App Store (for iPhones) or Google Play Store (for Android phones).

Download on the **App Store**
GET IT ON **Google Play**

STEP 2

Make sure your mobile device is connected to your **2.4GHz WiFi** network.

Open the app and **click** "Create Account" by following the on-screen instructions.

After your initial sign in, your app will remember your password and log you in automatically.

You can also choose to manually log out under Settings in the Main menu.

Click Create Account

You may need to check your Spam folder for the verification code

---

STEP 3

Plug the Smart Device into a wall outlet.

Indicator light

Reset button
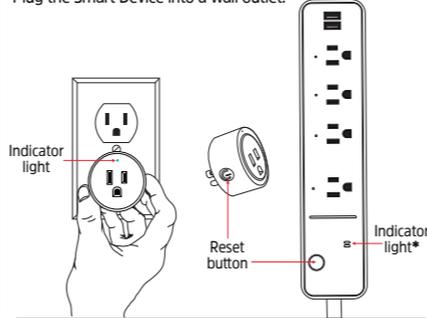

Indicator light*

Note: The indicator light on the plug should start blinking rapidly (about 4 times per second) for EZ pairing mode.

LED Behavior	Device Status
Flashing Rapidly	EZ Pairing
Flashing Slowly	AP Pairing

Button Operation	
Single Click	On/Off
Hold for 5 Seconds	Enter/Cycle through Pairing Modes

* Placement of power button and indicator light will vary by product.

1

STEP 4

Make sure your Bluetooth® is enabled.
After logging in, **click "+"** on the top right of the screen and **select** "Add device".

Click   **Select**

Add device
Add scene

The app will detect the WIFI+BLE enabled device and ask if you if you want to **add it**

Make sure the check is makred next to the device you want to add, **click** the + button

Make sure your 2.4GHz network is selected, input the password and **press** confirm

NOTE: Once successful then go directly to Step 7.
If the app does not detect your device, skip this part and proceed to Step 5.

3

STEP 5

Select the Power category and **confirm** that the indicator light is still rapidly blinking.
Click "Confirm indicator rapidly blink".

Select
Power

Help: Switch between pairing modes. See troubleshooting page 12.

Confirm

Confirm indicator rapidly blink

Click

4

STEP 6

Confirm that the displayed **WiFi** network is your **2.4GHz WiFi** network, **enter** your WiFi password and **click** "Confirm".

Confirm WiFi

**Enter and Click**

Confirm

Help: If you need information about **2.4GHz WiFi** networks, click the link to go to our Connect FAQs on our website.

5

STEP 7

Your Smart Device will now be connected to the network. Confirm the settings for your device and then **Click** "Done".

PROCESSING TIME
1-2 minutes

Your **Energizer**® Smart Device is now ready to use. You can now set schedules, timers and control your Smart Device remotely. We hope you enjoy using your **Energizer**® Smart Device. For frequently asked questions and instruction videos, please visit our website at www.energizerconnect.com.

VOICE ACTIVATION

To enable voice access for your Smart Device, you will need to link the **Energizer**® Connect skill with your choice of voice assistant.
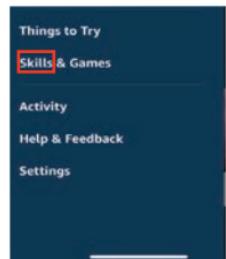

Voice Activation for Alexa
Make sure your Alexa device is installed and set up first.
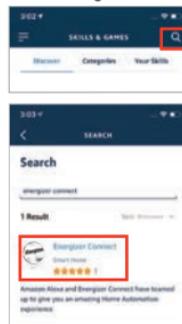

STEP 1
Open your Alexa app.
STEP 2
Open the menu to search for "Skills".

STEP 3
Search for & **choose**
Energizer® Connect.

Click

Choose

STEP 4
Authorize your account with the Alexa skill using the username and password from your **Energizer**® Connect app.

STEP 5
Using the name you assigned your Smart Device, you can ask Alexa to turn on/off your Smart Device.
Ex: "Alexa, turn on bedroom fan".

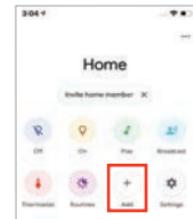

Voice Activation for the Google Assistant
Make sure your Google Assistant device is installed and set up first.
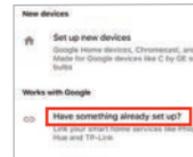

STEP 1
Open your Google Home app.
STEP 2
Click the "+" to add a new device.

Click

STEP 4
Click "Have something already set up?"

Click

STEP 3
Click "Set up device".

Click

STEP 5
Search for & **choose**
Energizer® Connect.

Choose

STEP 6
Authorize your account with the Google Assistant skill using the username and password from your **Energizer**® Connect app.

STEP 7
Using the name you assigned your Smart Device, you can ask the Google Assistant to turn on/off your Smart Device.
Ex: "Ok Google, turn on bedroom fan".

Voice Activation for Siri

STEP 1
Open the Energizer Connect app and click the "+" at the top right of the Home Screen and select "Add Scene"

Select
Add device
add scene

STEP 2
Select "launch Tap To Run" and fill out the information.

launch Tap To Run

STEP 3
Once your Smart Scene is created, return to the Smart Scene manager by clicking on the three lines in the top left of the Home Screen to open the main Menu, and then selecting "Smart Scenes".

Smart Scenes

STEP 4
Click the button at the bottom of the screen that says "Add to Siri".

Add to Siri

STEP 5
Select your new Tap to Run Smart Scene from the list and click "Add to Siri".

Step 6:
Create a custom phrase for Siri to run your Smart Scene.
(this can be any verbal command)

Add to Siri

Now Siri can use your voice and custom verbal command to turn your Smart Device on or off, adjust the device at the same time as your other smart devices, or whatever you've set up as your Tap To Run Smart Scene.

TROUBLESHOOTING

HAVING TROUBLE WITH SETUP?

Don't return this product to the retailer, we're here to help
Please call us at 888-693-4189 or visit **www.energizerconnect.com** for video tutorials, updated manuals and more FAQs for your device.

My device won't connect to my network!
1. Make sure you are connected to your **2.4 GHz network** and your device is blinking red before you start trying to connect your device.
2. You may need to reset your device if you are having trouble. Check out page 2 for the location of your device's reset button.
3. To allow the app to locate the network, you may need to allow permissions for location and turn on your Bluetooth.
4. If you are not certain what type of network you have, contact your Internet Service Provider and ask them to create a separate, dedicated **2.4GHz network**. You can also do this manually in your router's settings.
5. Try moving to a spot closer to your router for connecting.
6. You can also purchase a WiFi extender to increase your WiFi range and strength.
7. In some cases, you can try using the secondary pairing mode by clicking "Net Pairing Mode" on the Add Device screen (see bottom of page 3). Follow the on-screen instructions.

The Smart Device is not suitable for appliances that require more than **15 amps**. Please check the device's electrical requirements before plugging in.
