

Making Life Easier and Safer

Staying in touch with your family and friends is convenient and easy when using your microTALK® radio. Some of the many uses you will discover include:

Communicating with others while hiking, biking, and working; keeping track of family and friends at a crowded public event; checking with travel companions in another car; talking with neighbors; arranging meeting spots with others while shopping at the mall.

Secure your microTALK® radio while on the go.

Carrying your microTALK® radio with you is easy when using the belt clip or optional wrist strap.

The belt clip easily attaches to your belt, purse, or backpack.

For Assistance in the U.S.A.

In this user's manual, you should find all the information you need to operate your microTALK® radio. If you require further assistance after reading this manual, Cobra Electronics offers the following customer assistance services:

Automated Help Desk

Important FCC Licensing Information

This radio operates on General Mobile Radio Service (GMRS) frequencies which require a Federal Communications Commission (FCC) license. See page 21 for licensing and other related information.

Operation

Customer Assistance | Warranty

Caring for Your microTALK® Radio

Your microTALK® radio will give you years of trouble-free service if cared for properly. Handle the radio gently. Keep the radio away from dust. Avoid exposure to extreme temperatures.

Installing Batteries

To install or replace batteries:

Insert Batteries

Tip of Belt Clip

Radio Charger Jack

- Remove belt clip by releasing belt clip latch and sliding clip up.
- 2. Loosen the two top and bottom screws on the back of the radio to remove the battery compartment cover. HINT: the screws should be loose enough (and sticking up) that you could use them to help pull off the battery door if needed.

- · Do not attempt to charge alkaline batteries.
- Do not mix old and new batteries.
- Do not mix alkaline, standard (carbon-zinc), or rechargeable (Ni-Cd, Ni-MH, etc.) batteries.

To charge batteries in radio:

- 2. Insert the cable into the charge jack located at the top of the radio.
- 3. Plug the charging cable into a power source.
- Use only the supplied rechargeable batteries and charger for recharging your Cobra microTALK radio.
- Cobra recommends your radio is turned off while being charged.
- It normally takes about 15 hours to fully charge batteries.
- Non-rechargeable alkaline batteries can also be used in your radio.

This radio floats with included NiMH battery. It may not float with some other AA batteries.

Using Your Radio

Introduction

Customer Assistance | Warranty

For charging microTALK radio(s) in desktop charger:

- 1. Insert radio(s) into desktop charger as shown.
- 2. Insert the micro-USB cable into jack on back of charger. **Note:** charger should be installed near the equipment and easily accessible.
- Plug the charging cable into a power source. For pluggable equipment, the socket-outlet shall be installed near the equipment and shall be easily accessible.

If charging light is not **on**, check position of radio. Radio should be upright. The charge indicator light will stay **on** until the charging is complete.

Quick Start

- 1. Press and hold the **Mode/Power** button to turn **on** your radio.
- 2. Press the Channel Up or Channel Down button to select a channel.

Both radios must be tuned to the same channel/privacy code to communicate.

- 3. Press and hold the **Talk** button while speaking into the microphone.
- **4.** When finished talking, release the **Talk** button and listen for a response.

Turning on Your microTALK® Radio

Press and hold the Mode/Power button until you hear a series of audible tones indicating the radio is on. Your microTALK® radio is now in Standby mode, ready to receive transmissions. The radio is always in Standby mode except when the Talk, Call or Mode/Power buttons are pressed.

Battery Low

When battery power is low, the final bar in the **Battery Low** icon will blink and an audible tone will sound twice before the radio shuts off. Your batteries should be replaced or recharged, if using rechargeable batteries.

The radio's LCD display will show a blinking charging staus indicator while charging.

Auto Battery Save

If there are no transmissions within 10 seconds, the radio will automatically switch to **Battery Save** mode and the **Power Saver** icon will flash in the display. This will not affect the radio's ability to receive incoming transmissions.

Communicating with Another Person

Two Inches (5 cm) from Mouth

- 1. Press and hold the Talk button.
- **2.** With the microphone about two inches (5 cm) from your mouth, speak in a normal voice.
- **3.** Release the **Talk** button when you are finished talking and listen for a response.

You cannot receive incoming calls while pressing the **Talk** button.

Both radios must be tuned to the same channel/privacy code to communicate.

To Select a Channel

With the radio **on**, select any of the 22 channels by pressing the **Channel Up** or **Channel Down** button.

Both radios must be tuned to the same channel to communicate.

Channels 1 through 7 are shared with FRS/ GMRS. Channels 8 through 14 are FRS only. Channels 15 through 22 are GMRS only.

See **page 20** for FRS/GMRS frequency allocations and compatibility charts.

Listening for a Response

Release the Talk button to receive incoming transmissions. Your microTALK® radio is always in Standby mode while the Talk or Call buttons are not pressed.

To Adjust Volume

Press the Volume Up or Volume

Down button A double beep sound is used to indicate

the minimum and maximum volume levels (1 through 8).

Call Button

Press and release the Call button.

The other person will hear a three second call tone. This tone is used only to establish voice communications.

See page 11 on how to select between ten call tone settings.

LED/S.O.S. Flashlight

Press and release the **LED flashlight** button below the TALK button to use the LED flashlight located at the bottom of the radio.

To activate S.O.S. function, press and hold the **LED** flashlight button to turn on. Press and release to turn off the flashlight or S.O.S. function.

Auto Sauelch

Your microTALK® radio will automatically shut off weak transmissions and unwanted noise due to terrain, conditions or if you've reached your Maximum Range limit.

Lock Function

The Lock function locks the Channel Up. Channel Down, Volume Up, Volume Down and Mode/ Power buttons to prevent accidental operation. To turn the lock on or off:

 Press and hold the Call/Lock button for two seconds

A double beep sound is used to confirm your lock on or off request. When in Lock mode. the Lock icon will be displayed.

microTALK® Range

Your range will vary depending on terrain and conditions.

In flat, open country your radio will operate at maximum range.

Buildings and foliage in the path of the signal can reduce the range of the radio.

Dense foliage and hilly terrain will further reduce the range of the radio.

On FRS Channels 8 through 14, your radio automatically switches to low power, which will limit the range the radio can communicate.

Using Your Radio

Introduction

Customer Assistance | Warranty

Scrolling Through the Mode Function

By scrolling through the **Mode** function, you will be able to select or turn on preferred features of your microTALK® radio. When scrolling through the **Mode** function, your radio features will be displayed in the same predetermined order:

Set CTCSS Privacy Codes

Set DCS Privacy Codes

Set Vox On/Off Set Vox Sensitivity

Set Call Tones 1-10

Set VibrAlert On/Off

Set Roger Beep On/Off

Set Key Tones On/Off

Privacy Codes

Your microTALK radio incorporates two advanced coded squelch systems that can help to reduce interference from other users on any given channel. CTCSS (Continuous Tone Coded Squelch System) provides 38 privacy codes and DCS (Digitally Coded Squelch) provides 83 privacy codes. This provides a total of 121 **Privacy Codes**. Either system can be used on all channels, but both systems cannot be used on the same channel at the same time.

To successfully communicate using a privacy code, both the sending and receiving radios must be tuned to the same channel and to the same privacy code system (CTCSS or DCS) and privacy code number. Each channel will remember the last privacy code system and number you select.

The privacy code 00 is not a privacy code, but allows all signals to be heard on a channel that is set to 00 on both the CTCSS and DCS systems.

Set CTCSS Privacy Codes

To select a CTCSS privacy code:

1. After selecting a channel, press the Mode/Power button until the CTCSS icon appears and the small numbers next to the channel number flash on the display.

If DCS is turned on at the channel selected, the display will flash the CTCSS icon and "OFF." To switch from DCS to CTCSS. press the Channel Up or Channel Down button while the display is flashing "OFF." The display will then show the small numbers flashing and you will then be able to proceed to step 2.

- 2. Press using the Channel Up or Channel Down button to select a privacy code. You can hold the **Up** or **Down** button for fast advance.
- 3. When your desired CTCSS privacy code is displayed, press the Mode/ Power button to proceed to other functions, or press Talk button to return to Standby mode.

Set DCS Privacy Codes

To select a DCS privacy code:

After selecting a channel, press the Mode/Power button until the DCS icon appears and the small numbers flash on the display (00 through 83).

If CTCSS is turned **on** at the channel selected, the display will flash the DCS icon and "OFF." To switch from CTCSS to DCS, press the **Channel Up or Channel Down** button while the display is flashing "OFF." The display will then show the small numbers flashing and you will then be able to proceed to step 2.

- 2. Press using the **Channel Up** or **Channel Down** button to select a DCS privacy code. You can hold the **Up** or **Down** button for fast advance.
- When DCS privacy code is displayed, press the Mode/Power button to enter the new setting and proceed to other functions, or press Talk button to return to Standby mode.

Voice Activated Transmit (VOX)

In **VOX** mode, your microTALK® radio can be used "hands-free," automatically transmitting when you speak. You can set the **VOX** sensitivity level to fit the volume of your voice and avoid transmissions triggered by background noise.

Mode/Power WOX Icon

To turn VOX mode on or off:

- Press the Mode/Power button until the VOX icon flashes on the display. The current On or Off setting is displayed.
- 2. Press the Channel Up or Channel Down button to turn VOX On or Off.
- When VOX is turned on or off, press the Mode/Power button to enter the new setting and proceed to other functions, or press Talk button to return to Standby mode.

To set VOX sensitivity:

 Press the Mode/Power button until the VOX icon flashes and the current sensitivity level is displayed.

The current VOX sensitivity level is displayed with letters "L" and a Number 1 through 5, with Number 5 being the most sensitive level and Number 1 being the least sensitive level.

- 2. Press the **Channel Up** or **Channel Down** button to change the setting.
- When VOX sensitivity is selected, press the Mode/Power button to enter the new setting and proceed to other functions, or press Talk button to return to Standby mode.

Ten Call Tone Settings

You can choose between ten different Call Tone Settings to transmit a call alert.

Call Tone Setting

Channel Button

To change a call tone setting:

- 1. Press the Mode/Power button until the letter "C" and the current call tone number (01 through 10) is displayed. The current call tone will sound for three seconds.
- 2. Press the Channel Up or Channel Down button to hear the other call tone settings.
- 3. Choose one of the following:
 - a. Press the Mode/Power button to enter the new setting and proceed to other functions.
 - b. Press Talk or Call/Lock button to return to Standby mode.
 - c. Do not press any buttons for 12 seconds to return to Standby mode.

VibrAlert® and Call Alert

Your MicroTALK® radio can alert you to incoming signals by sounding an audible call tone or an audible tone with VibrAlert®.

To change call settings:

- 1. Press the Mode button until the Call Setting icon flashes on the display. The current setting ("01" vibrate + ring, "02" ring only) is displayed.
- 2. Press the Channel Up or Channel Down button to change the call setting.
- 3. Choose one of the following:
 - a. Press the Mode button to enter the new setting and proceed to other functions.
 - b. Press Talk or Call/Lock button to return to Standby mode.
 - c. Do not press any buttons for 12 seconds to return to Standby mode.

Roger Beep Confirmation Tone

Your listener will hear an audible tone when you release the Talk button. This alerts the other party that you are finished talking and it is OK for them to speak.

To turn roger beep on or off:

- 1. Press the Mode/Power button until the Roger Been icon flashes. The current on or off setting is displayed.
- 2. Press the Channel Up or Channel Down button to select roger beep on or off.
- 3. Choose one of the following:
 - a. Press the Mode/Power button to enter the new setting and proceed to other functions.
 - b. Press Talk or Call/Lock button to return to Standby mode.
 - c. Do not press any buttons for 12 seconds to return to Standby mode.

Kev Tone On/Off

When **Key Tone** is **On**, an audible tone will sound each time a button is pressed.

Channel Button

To turn key tone on or off:

- 1. Current key tone status On/Off will flash.
- 2. Press the Channel Up or Channel Down button to select key tone on or off.
- 3. Choose one of the following:
 - a. Press the Mode/Power button to enter the Standby mode.
 - b. Press Talk or Call/Lock button to return to Standby mode.
 - c. Do not press any buttons for 12 seconds to return to Standby mode.

Set High/Medium/Low (H-M-L) Power Button

Your radio can transmit selectively at 0.5, 1, or 2 watts of power Use the low power setting for short-range communications and use the high power setting for long-range communications.

To toggle between H-M-L Power Modes:

- 1. Press the H-M-L button to select between High, Medium and Low power settings. The HI. MED or LO icons will show on the display for the selected level.
- 2. When the desired power is selected, press the Talk button to return to Standby mode.

Channel 8 through 14 only operates on Low power setting.

Operation

10 Memory Locations

Your microTALK radio has 10 Memory Locations for storing your most frequently used channels and channel/privacy code combinations. These Memory Locations can be selected individually or can be scanned.

To program a memory location:

- Press and hold the MEM/ESC button. Memory icon and the Memory Location show on the display.
- 2. Press the **Channel Up** or **Channel Down** button to select the memory location (0 through 9).

If a location has been programmed before, its associated channel/privacy code will be shown on the display.

Channel Button

Memory Channel

- Press the Channel Up or Channel Down button to select the memory location.
- Press the MEM/ESC button. The channel numbers will flash on the display.
- **6.** Press the **Channel Up** or **Channel Down** button to select a channel (1 through 22).

b. Press the MEM/ESC button to switch from CTCSS to DCS. The DCS icon and privacy code numbers will flash on the display. The Channel Up or Channel Down button can then be used to select a DCS privacy code (00 through 83) for the channel.

If "oF" flashes in place of the privacy code numbers, a privacy code is already set in the opposite (CTCSS or DCS) system. Press the **Channel Up** or **Channel Down** button to cancel the opposite code and select a privacy code from the active system for the selected channel.

- 9. Choose one of the following:
 - a. Press the MEM/ESC button to enter the channel/privacy code in the selected memory location. Radio then proceeds to next memory location, which will blink.
 - b. Press and hold the MEM/ESC button to save the current state of the Set Memory Function and press the MEM/ESC button again return to Standby mode.

To recall a stored memory channel location:

- Press the MEM/ESC button until the Memory icon and the memory location number flash on the display.
- 2. Press the **Channel Up** or **Channel Down** button to select a memory location (0 through 9).

If a location has been programmed before, its associated channel/privacy code will be shown on the display.

Press and hold the MEM/ESC button to return to Standby mode on the selected memory location.

A memory location can be reprogrammed at any time it is displayed. Press the **MEM/ESC** button to begin.

Mode Functions Operation

Operation

Customer Assistance Warranty

Tri-Watch Set-up

Your microTALK® radio can be set up to scan three of your favorite channels for activity.

Tri-Watch Button

2. Press Channel Up or Channel Down button to

- select the desired Tri-Watch channel. 3. Press and release TRI-WATCH button to
- confirm entry. 4. Repeat steps 2 and 3 to program the remaining additional Tri-Watch memory channel.
- 5. After programming both Tri-Watch memory channels the radio will immediately engage Tri-Watch mode.

Tri-Watch Button

Channel Button

Using Tri-Watch:

- 1. From GMRS Standby mode, press the TRI-WATCH button. The TW will appear in the display along with the three channels stored in the Tri-Watch memory.
- 2. The radio will scan through the three (3) Tri-Watch memory channels.
- 3. A signal on any one (1) of the three (3) channels will stop the scan for 6 seconds to allow you to listen to the traffic on that location.

- 4. Press Channel Up or Channel Down button to resume scanning the Tri-Watch channels or to change the scan direction.
- 5. To EXIT the Tri-Watch scan, press the TRI-WATCH button again, and the radio will return to GMRS Standby mode.

BURP

BURP features allows the user to expel water from inside the speaker grille. This is useful if the radio is dropped in the water which may become trapped in the speaker grille and muffle the audio.

To activate BURP:

- 2. The Burp tone(s) at maximum level will sound from the internal speaker for 8 seconds. During this time, BURP will appear in the display.
- 3. Hold the radio with the speaker grille down to help the water drain out.
- 4. After an 8-second interval, the radio will return to standby.

Channel Scan

Your microTALK® radio can automatically scan channels.

To scan channels:

- 1. Press and release the Scan button until the Scan icon and the channel numbers appear on the display.
- 2. Press and hold the Scan button to begin scanning channels.

The radio ignores specific privacy codes while scanning channels.

The **Scan** icon will continue to be displayed when scan is on. Your radio will continue to scan all channels and stop if an incoming transmission is detected. Your radio will remain on that channel for 6 seconds

During scanning (while receiving an incoming transmission), vou can choose from the following:

- a. Press and hold the Talk button to communicate on that channel. Your radio will remain on that channel and return to Standby mode.
- b. Press the Channel Up or Channel Down button to resume scanning channels.
- c. Press and hold the Scan button to return to Standby.

Privacy Code Scan

Your microTALK radio can automatically scan the **Privacy Codes** (either CTCSS 01 through 38 or DCS 01 through 83) within one channel. Only one set of privacy codes (CTCSS or DCS) can be scanned at a time.

To scan privacy codes:

- While in Standby mode, press and release the Scan button twice (CTCSS) or three times (DCS) until the CTCSS or DCS icon and numbers are flashing.
- 2. Press and hold the **Scan** button to begin scanning privacy codes within the selected channel.

The **Scan** icon will continue to be displayed when privacy code scan is **on**. Your radio will continue to scan privacy codes and stop as an incoming transmission is detected. Your radio will remain on that channel/orivacy code for 6 seconds.

NOAA* All Hazards Radio Channels

You can use your microTALK radio to listen to **NOAA All Hazards Weather Radio** channels transmitting in your area.

Weather Button

To listen to All Hazards Radio channels:

Press the Weather button until the All Hazards
 Radio icon and the currently selected All Hazards
 Radio channel are displayed.

Use the Channel Up or Channel Down button to change All Hazards Radio channels.
 The All Hazards Radio icon will continue to be displayed when All Hazards Radio is on.

4. To exit **All Hazards Radio**, press and hold the **Weather** button until **On** or **Off** is displayed.

*National Oceanographic and Atmospheric Administration

Weather (WX) Alert Mode

Turning **On** the **Weather Alert** function will allow your radio to automatically receive NOAA weather signals and warnings from designated weather broadcast stations. If the radio is turned **ON**, it will alert to Weather and other emergency alerts broadcast by NOAA.

Make sure the strongest Weather channel is selected for your area using the channel selection in the previous menu.

To turn Weather Alert On or Off:

- 1. Press the **Weather** button to enter the **All Hazards (Weather)** radio mode.
- Press the Weather button again and the Weather Alert icon flashes on the display. The current On or Off setting is displayed.
- 3. Press the Channel Up and Channel Down button to turn Weather Alert On or Off.
- **4.** Press the **Weather** button again to save the new setting.

IMPORTANT NOTICE: FCC LICENSE REQUIRED

This two-way radio operates on GMRS (General Mobile Radio Service) frequencies which require an FCC (Federal Communications Commission) license. A user must be licensed prior to operating on Channels 1 through 7 on high power or 15 through 22, which comprise the GMRS channels of this radio, Serious penalties could result for unlicensed use of GMRS channels, in violation of FCC rules. Operation of this radio is subject to additional rules specified in 47 C.F.R. Part 95.

Licensed users will be issued a call sign by the FCC, which should be used for station identification when operating this radio. GMRS users should also cooperate by engaging in permissible transmissions only, avoiding channel interference with other GMRS users, and being prudent with the length of their transmission time. For licensing information and application forms, please call the FCC Hotline at 800-418-FORM, Request form #159 and form #605. Questions regarding the license application should be directed to the FCC at 888-CALL-

Channel 1 through 7 on low power and channels 8 through 14 comprise the FRS (Family Radio Service). No license is required to operate on the FRS.

WARNING: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment."

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device. pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- · Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- . Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

ECC. Additional information is available on the ECC's website at www.fcc.gov.

. Consult the dealer or an experienced radio/TV technician for help.

Safety Information for microTALK Radios

Your wireless handheld portable transceiver contains a low power transmitter. When the talk button is pushed, it sends out radio frequency (RF) signals. The device is authorized to operate at a duty factor not to exceed 50%. In August 1996, the Federal Communications Commissions (FCC) adopted RF exposure guidelines with safety levels for handheld wireless devices.

Operation

FCC RF Exposure Requirements: For body-worn operation, this radio has been tested and meets the FCC RF exposure guidelines when used with Cobra accessories supplied or designated for this product. Use of other accessories may not ensure compliance with FCC RF exposure guidelines. Use only the supplied antenna. Unauthorized antennas, modifications or attachments could damage the transmitter and may violate FCC regulations.

Hold the transmitter approximately 2 inches from your face and speak in a normal voice, with the antenna pointed up and away.

MODEL CXT1035:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: 1) This device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Warnings: Replacement or substitution of transistors, regular diodes or other parts of a unique nature, with parts other than those recommended by Cobra may cause a violation of the technical regulations of part 95 of the FCC rules, or violation of type acceptance requirements of part 2 of the rules.

Licensing & Product Service

Warranty and Trademark Acknowledgement

FCC Part 15.21 Warning Statement-

NOTE: THE GRANTEE IS NOT RESPONSIBLE FOR ANY CHANGES OR MODIFICATIONS NOT EXPRESSLY APPROVED BY THE PARTY RESPONSIBLE FOR COMPLANCE. SUCH MODIFICATIONS COULD VOID THE USER'S AUTHORITY TO OPERATE THE EQUIPMENT.

IC RSS-GEN. Sec 7.1.3 Warning Statement-

This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

IC RSS-GEN. Sec 7.1.2 Warning Statement-

Under Industry Canada regulations, this radio transmitter may only operate using an antenna of a type and maximum (or lesser) gain approved for the transmitter by Industry Canada. To reduce potential radio interference to other users, the antenna type and its gain should be so chosen that the equivalent isotropically radiated power (e.f.r.p.) is not more than that necessary for successful communication.

IC RSS-102, Sec 2.6 Warning Statements

The applicant is responsible for providing proper instructions to the user of the radio device, and any usage restrictions, including limits of exposure durations. The user manual shall provide installation and operation instructions, as well as any special usage conditions, to ensure compliance with SAR and/or RF field strength limits. For instance, compliance distance shall be clearly stated in the user manual.

Product Service Questions

For any questions about operating or installing this new Cobra product, or if parts are missing... PLEASE CALL COBRA FIRST...do not return this product to the store. See customer assistance on page A1.

For Products Purchased in the U.S.A.

- If your product should require factory service, please call Cobra first before sending your radio. This will ensure the fastest turn-around time on your repair. You may be asked to send your radio to the Cobra factory. It will be necessary to furnish the following to have the product serviced and returned.
- For warranty repair include a copy of the original sales receipt. If you send the original receipt, it cannot be returned.
- 2) Send the entire product.
- Enclose a detailed description of the problem along with the name and address of where the product is to be returned.
- 4) Pack radio securely to prevent damage in transit. If possible, use the original packing material.
- 5) Ship prepaid and insured by way of a traceable carrier such as United Parcel Service (UPS) or Priority Mail to avoid loss in transit to Cobra Factory Service:

Cobra Electronics Corporation 6500 West Cortland Street

Chicago, Illinois 60707 U.S.A.

6) If the radio is under warranty, it will be repaired or exchanged depending on the model.

Please allow approximately three to four weeks before contacting Cobra for status. If the radio is out of warranty, a letter will automatically be sent informing you of the repair charge or replacement charge. If you have any questions, please call 773-889-3087 for assistance.

For Products Purchased Outside the U.S.A.

Please contact your local dealer for product service information.

Limited One-Year Warranty on Radio(s)

For Products Purchased in the U.S.A.

Cobra Electronics Corporation warrants that its Cobra microTALK® radios and the component parts thereof, will be free of defects in workmanship and materials for a period of one year from the date of first consumer purchase. This warranty may be enforced by the first consumer purchaser, provided that the product is utilized within the U.S.A.

Cobra will, without charge, repair or replace, at its option, defective microTALK® radios, products or component parts upon delivery to the Cobra Factory Service department, accompanied by proof of the date of first consumer purchase, such as a duplicated copy of a sales receipt.

You must pay any initial shipping charges required to ship the product for warranty service, but the return charges will be at Cobra's expense, if the product is repaired or replaced under warranty. This warranty gives you specific legal rights, and you may also have other rights which may vary from state to state.

Exclusions: This limited warranty does not apply: 1) To any product damaged by accident; 2) In the event of misuse or abuse of the product or as a result of unauthorized alterations or repairs; 3) If the serial number has been altered, defaced, or removed; 4) If the owner of the product resides outside the U.S.A.

All implied warranties, including warranties of merchantability and fitness for a particular purpose are limited in duration to the length of this warranty. Cobra shall not be liable for any incidental, consequential or other damages; including, without limitation, damages resulting from loss of use or cost of installation. Some states do not allow limitations on how long an implied warranty lasts and/or do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations may not apply to you.

For Products Purchased Outside the U.S.A.

Please contact your local dealer for warranty information.

90-Day Warranty on Rechargeable Batteries

For products purchased in the U.S.A. and Canada.
