- USB-C port supports up to 47 W of power
- Two USB-A ports charge a tablet, smartphone, and more
- Long 8 ft. (2.4 m) USB-C power cable

PT-PAC65C2U / PT-PAC65C2U-C
65 W USB-C CHARGER

QUICK SETUP GUIDE

Before using your new product, please read these instructions to prevent any damage.

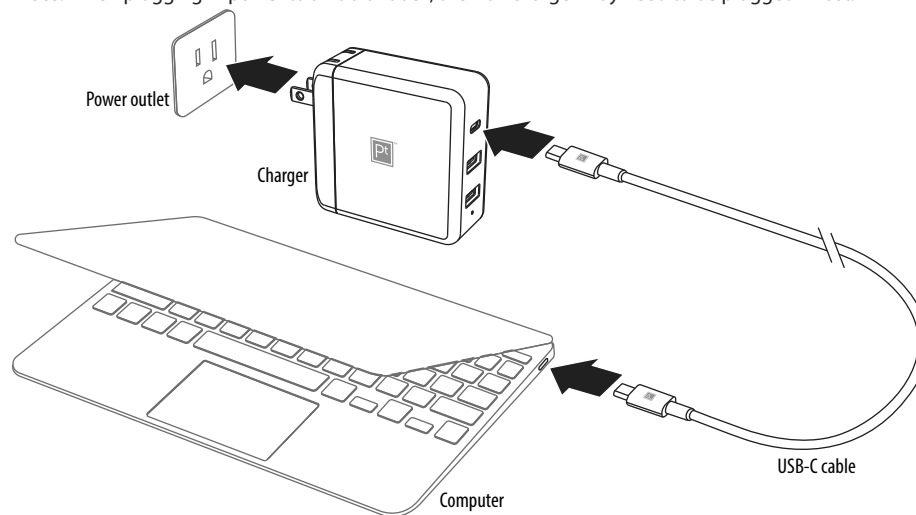

COMPATIBILITY

- Powers and charges USB-C phones, tablets, Chromebooks, laptops, and other devices (that draw up to 47 W of power).
- Powers and charges traditional USB (Type-A) devices, including phones, tablets, and more (that draw up to 12 W total).

CONNECTING THE CHARGER TO YOUR DEVICE

- 1 Unfold the AC plug completely.
- 2 Plug the charger into a power outlet. The indicator light turns on.
- 3 Connect the USB-C cable from your device's USB-C port to the charger.
- 4 Connect additional devices to the USB-A ports (optional).

Note: When plugging in power to a hub or dock, the wall charger may need to be plugged in last.

Cable: 3.9 oz. (109 g)
- **Cable length:** 8 ft. (2.4 m)
- **USB-C:** 5 V/3 A, 9 V/3 A, 15 V/3 A, 20 V/2.35 A
47 W maximum (DC)
- **USB-A:** Single port: 5 V/2.4 A
Both ports: 5 V/3.6 A max
- **Power delivery:** Yes
- **Certifications:** UL
- USB IF PD 3.0

TROUBLESHOOTING

My device won't charge.

- This charger is for USB-C devices that use 47 W or less power and USB-A devices that use a total of 12 W or less power. Check your device's specifications to make sure that it is compatible.
- Make sure that your charging cable is securely connected to your device and the charger.
- Make sure that the charger is connected to a working power outlet. If the charger is connected to a surge protector, make sure that it is turned on.

My device charges slowly.

- This charger is for USB-C devices that use 47 W or less power and USB-A devices that use a total of 12 W or less power. Check your device's specifications to make sure that it is compatible.
- If you have multiple devices connected, they may charge more slowly.

LEGAL NOTICES

FCC Information

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

ICES-003

This Class B digital apparatus complies with Canadian ICES-003;

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.
