H6PRO Closed Acoustic Gaming Headset

Product line: **Pro**

Product line tagline: **Unleash the game**

USPs **Main USPs**

- Exceptional audio isolation for ultimate performance
- Elongated microphone boom arm for precise voice pick up
- Enhanced and optimized for long lasting gaming sessions

Product promise **Exceptional audio clarity and immersion with passive isolation**
The H6PRO closed acoustic gaming headset is a next generation, high performance, wired gaming headset with excellent passive noise reduction for the deepest game focus. The proprietary speaker system is tuned to satisfy the needs of the most demanding gamer and factory checked to ensure accuracy in left-right balance. The EPOS signature sound is controlled yet powerful throughout the entire audible frequency spectrum, with a precise bass response and no masking of the tight mid-range and crisp highs. This accuracy is ideal for games both in stereo and virtual surround sound over headset and allows gamers to play for long periods without suffering from listening fatigue or losing focus.

The headset is the evolution of the acclaimed GAME ZERO and GSP 600 closed acoustic series. The H6PRO is robust and durable, with reduced clamping force for comfort in an improved, lighter weight headband. Memory foam ear pads provide a superb acoustic seal and a 2-axis hinge design on the ear cup ensure a perfect fit. The elongated lift-to-mute boom arm offers precise voice pickup; at the same time, its convenient magnetic attachment mechanism gives gamers the flexibility to remove the arm should they so choose, for example when streaming with a stand-alone microphone.

High performance power and control

The H6PRO offers the performance, control and reliability gamers demand to perform at their best. Its proprietary speakers offer unparalleled detail across the full audio spectrum for maximum accuracy and minimum listening fatigue. The lift-to-mute boom arm is long and detachable, allowing varied placement without compromising voice pick up. The headband has variable softness to ensure maximum comfort and a slider with visual indicator for reliable positioning. Memory foam ear pads provide a comfortable and superb acoustic seal while a 2-axis hinge on the ear cup ensures a perfect fit.

Designed for any platform with analog wired outputs, the headset will perform optimally with binaural headphone surround sound through the EPOS Gaming Suite with sound cards such as the GSX 300.

Closed Acoustic Headset Design

The closed-back ear cups and memory foam pads creates a perfect acoustic seal to minimize the intrusion of sound from the outside environment, creating an unrivalled level of power, control and detail. Gamers can focus in on the smallest audio nuances and gain that competitive edge.

Redesigned Microphone Boom Arm

The elegant lift-to-mute microphone is on a longer, slimmer boom arm for improved voice pick-up and a lighter aesthetic. It is attached using a brand-new magnetic coupling, with a cover plate to maintain the sleek lines.

Exceptional Comfort And Durability

The slimmer profile and new headband design improves aesthetic appeal while reducing weight and enhancing comfort over long gaming sessions. Ear cups with a 2-axis hinge angle to fit different head shapes with balanced pressure distribution, and memory foam ear pads help improve overall comfort.

Wired Analog Compatibility

PRODUCT DESCRIPTION

H6PRO Closed Acoustic Gaming Headset

Short description

Powerful, distraction-free audio

Tap into exceptionally detailed audio with the H6PRO, a closed acoustic gaming headset that seals out ambient noise. Its detachable boom microphone is positioned for optimal voice pickup, alongside comfort features like a cushioned headband, memory foam ear pads, and adjustable ear cups for long-wear gaming.

Medium description

Sharp focus, sharper audio

The closed acoustic H6PRO gaming headset dampens ambient noise so you can enjoy every detail of your in-game soundscapes. Its powerful, controlled, high-fidelity audio delivers make-or-break audio cues to maximize performance and enjoyment.

Alongside a detachable lift-to-mute boom mic positioned for optimal voice pickup, this headset is packed with comfort features for long-wear gaming: its lightweight build, padded headband, and adjustable ear cups, and memory foam ear pads are designed for hours of intense focus for both work and play.

Benefits and key features

Noise-dampening closed acoustic design

Ambient noise is no match for the H6PRO. This headset's closed-back ear cups keep environmental distractions out, so you can sharpen your competitive edge by focusing on every audio detail.

Nonstop comfort for long-wear gaming

Extended gaming sessions call for exceptional comfort, and the closed acoustic version of H6PRO pulls out all the stops: a lightweight build, a redesigned headband with improved padding, hinged ear cups, and memory foam ear pads.

Compatible with all major platforms

Inside the H6PRO box, you'll find exchangeable cables for PC, Mac®, PS4™, PS5™, Xbox Series X|S, Xbox One and Nintendo Switch. You can also pair this headset with a variety of EPOS sound cards to further enhance your gaming audio.

Detachable lift-to-mute microphone

PRODUCT DESCRIPTION

H6PRO Closed Acoustic Gaming Headset

Raise the H6PRO's microphone to instantly take yourself off the air. This headset's magnetic boom arm – positioned for optimal voice pickup – can easily be removed and replaced with a sleek cover plate if you're using an external microphone.

Integrated volume controls

Need to optimize your sound on the fly? An ergonomic volume wheel on the headset's right ear cup makes it easy to adjust your audio without breaking your focus.
