

# Universal Bluetooth Audio Transmitter with Bluetooth 5

Bluetooth enable TVs, stereos, computers and MP3 players for wireless audio transmitting

**50'** RANGE

## Overview:

Aluratek's Universal Bluetooth Audio Transmitter with Bluetooth 5 is the perfect solution to add Bluetooth transmitting functionality to any audio output device with a 3.5 mm AUX OUT, headset output or RCA output jack. Transmit audio wirelessly from a TV, stereo, desktop computer, laptop, walkman, CD player, MP3 player or even a motorcycle to a Bluetooth enabled device like Bluetooth headphones, Bluetooth earbuds and Bluetooth speakers.

Simply connect the transmitter directly or connect using the included 3.5 mm RCA Y-cable for the best desired set-up. The transmitter features volume control, power ON / OFF button and a built-in rechargeable battery so you can enjoy wireless audio transmitting up to 33 feet away from the transmitter for up to 10 hours on a full charge.

## Features:

- Easy pairing with Bluetooth headphones, earbuds, speakers and other Bluetooth enabled audio systems
- Add Bluetooth transmitting functionality to TVs, computers and MP3 players with an AUX OUT (3.5 mm) or headset port (3.5 mm)
- Connect the included 3.5mm RCA-Y cable to use with TV and home stereo receivers
- Features Bluetooth v3.0 with A2DP for superior wireless performance
- Transmits up to 33 feet away for up to 10 hours streaming on a full charge- works as it charges
- Sleep Mode Function - auto turn off within 5 minutes after disconnected from any device
- Charge via the built-in lithium-ion rechargeable battery with the included USB charging cable
- Plug and Play - no driver or software needed
- Limited 1 Year Warranty

## Bluetooth Enable Your TV and Speakers

---

Use the transmitter to Bluetooth enable any audio output device with an AUX OUT (3.5mm) port such as computers, TVs, walkmans, CD players and MP3 players to a Bluetooth enabled device like Bluetooth headphones, Bluetooth earbuds and Bluetooth speakers. You can also connect to home stereo receivers via the RCA OUT ports using the included RCA-Y cable.

## Long Distance Streaming

---

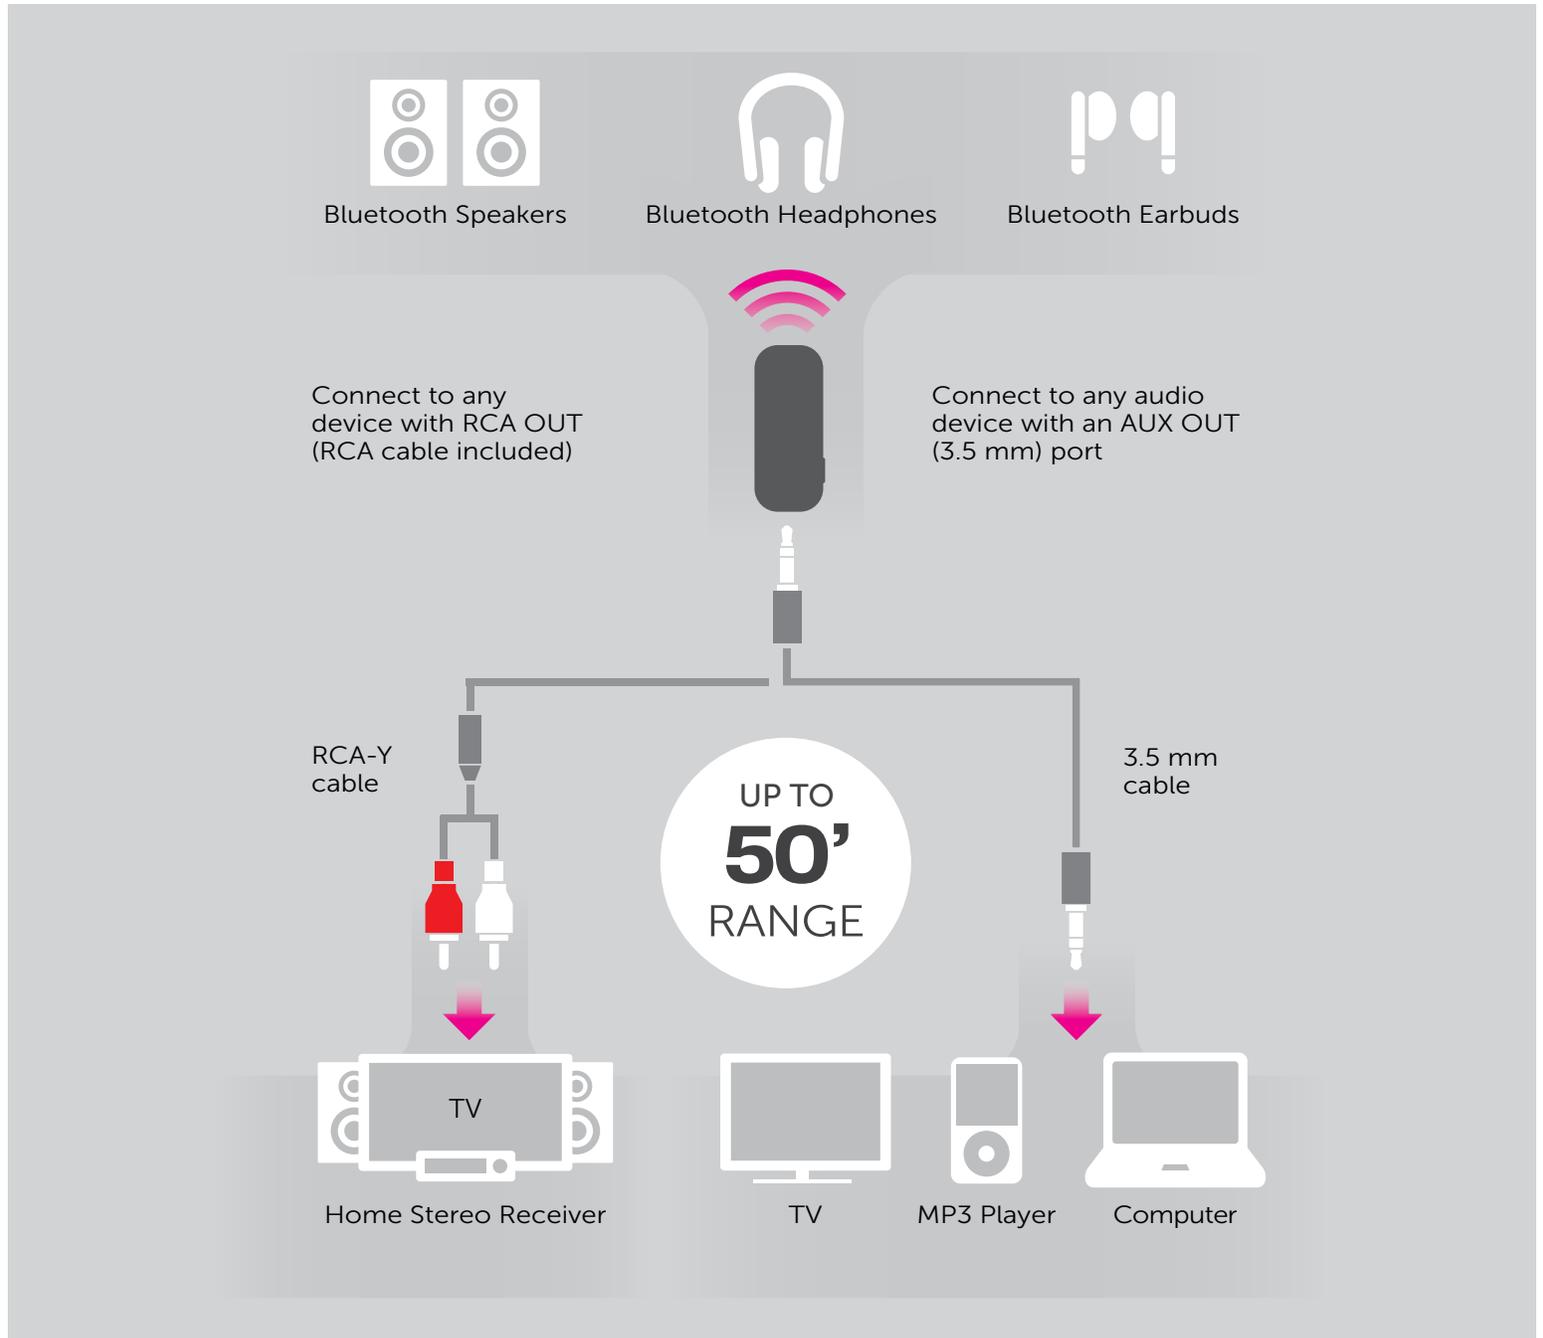

With the latest in Bluetooth technology (Bluetooth 5) you can now stream your digital media up to 50 feet (15 meters). The transmitter will even allow streaming while charging. (includes USB charging cable.)

## Dual Streaming Support

---

Two Bluetooth headphones can be paired at the same time so you can stream to both devices simultaneously up to 15 hours on a full charge utilizing the built-in lithium-ion battery.
