C2SL36 INSTALL GUIDE

NON-COMBUSTIBLE CONSTRUCTION
Insulated Jacket NOT Required

- TOP VIEW
  - GRILL OPENING 11/2"
  - LINER OPENING 7/8"
- OPENING WIDTH 24"
- OPENING DEPTH 20 1/2"
- OPENING HEIGHT 1 5/8"

FRONT VIEW
- DOORS / DRAWERS OPENING WIDTH 32 1/2"
- OPENING HEIGHT 10 1/4"
- INCLUDING COUNTERTOP 11/2" MIN

Ventilation Requirements:
- Regardless if you are using a combustible or non-combustible building material, you must include at least two vents within the island.
- These vents must be at least 20 sq. in. each and allow fresh air to move from the grill cabinet to the exterior environment.
- For a propane setup, the vents should be installed lower as propane is heavier than air.
- For a natural gas setup, the vents should be located higher in the island, as natural gas is lighter than air.
- Do not locate the two vents on the same wall of the island. Cross ventilation is key to allow any excess heat or trapped gas to dissipate.

Important Note to Installer: This file is not intended to replace your Owners’ Manual which contains specific safety requirements and consumer guidelines. Please refer to your Owners’ Manual prior to installing or operating your built-in grill.

COMBUSTIBLE CONSTRUCTION
Insulated Jacket Required - Model # CJAKTCS36

- TOP VIEW
  - LINER OPENING 1 3/4"
  - JACKET OVERHANG 7/8"
- OPENING WIDTH 22 1/8"
- OPENING DEPTH 4 1/8"
- OPENING HEIGHT 11"

FRONT VIEW
- DOORS / DRAWERS OPENING WIDTH 35 3/4"
- OPENING HEIGHT 1 1/2" MIN

- INCLUDING COUNTERTOP 2 3/4" OPENING WIDTH
- OPENING HEIGHT 4 1/8"

Ventilation Requirements:
- If using combustible material within 24" of the grill frame, you MUST use the corresponding Coyote Insulated Jacket
- Using a insulated jacket, does not waive any other standard installation procedure (ventilation, connections, etc)
- The jacket is designed to hang from the counter top with no support underneath
- Minimum clearance for hood to open is 2"
- If you have a wall/partition behind the grill, the minimum rear clearance to that wall should be at least 7" to allow for ventilation of the exhaust

Important Note to Installer: This file is not intended to replace your Owners’ Manual which contains specific safety requirements and consumer guidelines. Please refer to your Owners’ Manual prior to installing or operating your built-in grill.
