

RF-G1189

**ROCKETFISH 3D EYEWEAR IS SPECIFICALLY DESIGNED FOR THE VIEWING OF 3D CONTENT ON A COMPATIBLE 3D SYSTEM.**

**DO NOT USE 3D EYEWEAR FOR SUN PROTECTION, AS GENERAL SPECTACLES, OR AS PROTECTIVE GOGGLES.**

## **WARNING**

**PLEASE READ THESE SAFETY WARNINGS AND CAUTIONS CAREFULLY TO ENSURE YOUR PERSONAL SAFETY AND PREVENT PROPERTY DAMAGE.**

### **PHOTOSENSITIVE EPILEPSY**

Some people may experience seizures or stroke triggered by visual stimuli from specific images, flashing lights or patterned scenes while watching 3D images. If you or a family member has a history of epilepsy or seizures, consult a doctor before using the 3D eyewear. **DISCONTINUE USE IMMEDIATELY and CONSULT A DOCTOR** if you or your child experiences any of the following symptoms while using the 3D eyewear: dizziness, altered vision, eye or muscle twitching, involuntary movements, loss of awareness, unconsciousness, disorientation, or seizures.

### **FALL/ACCIDENT HAZARD**

Do not use 3D eyewear near staircases, ledges or balconies. You may risk falling during or after use. When watching 3D images, do not place anything nearby that can be easily broken. Involuntary movement or surprised reaction may occur during 3D viewing, causing you to break nearby objects and hurt yourself. Do not use the 3D eyewear if you are ill, fatigued or under the influence of alcohol.

### **EYE DAMAGE/ACCIDENT HAZARD**

Do not use 3D eyewear for anything other than viewing 3D images on a compatible 3D system. For example, do not use 3D eyewear while driving, reading, or operating machinery. Do not use 3D eyewear for sun protection, as general spectacles, or as protective goggles, as your eyesight may be damaged.

### **CHILD SUPERVISION REQUIRED**

The vision of young children (especially those under six years old) is still under development. Consult your doctor (such as a pediatrician or eye doctor) before allowing young children to use 3D eyewear. Adults should supervise young children using the 3D eyewear to ensure they follow these warnings and cautions.

## **CAUTION**

The following people should not use this product: pregnant women, infirm persons, persons with heart conditions, persons with epilepsy, as well as persons that become nauseous easily.

Wear 3D eyewear in the appropriate manner. 3D images will not be appropriately displayed if the 3D eyewear is worn in any way other than as intended (such as worn upside down).

Sit at the recommended distance from the screen for the 3D display unit. For standard 3D television viewing, this is typically 3 times further than the effective height of the screen.

Some people may experience discomfort (such as eye strain, eye fatigue, headache, dizziness or nausea) while using 3D eyewear. If you experience such discomfort, you should immediately discontinue use of your 3D eyewear until the discomfort subsides. If you experience any of these or other discomforts repeatedly, consult a doctor.

It is recommended that all viewers take regular breaks while using 3D eyewear for prolonged periods. The length and frequency of necessary breaks may vary from person to person. Please take breaks that are long enough to allow any feelings of discomfort to subside. If symptoms persist, consult a doctor.

Your new eyewear comes with a specially-woven electrostatic microfiber bag for cleaning and storage; using it will preserve the superior optical quality of the lenses. Hand wash and air-dry the microfiber bag regularly.

The possible health risks associated with frequent and prolonged use of 3D eyewear are currently unknown.
