Why choose Painter 2020?

World's most realistic Natural-Media®

Immerse yourself in the largest selection of Natural-Media brushes on the market, with thick, wet, and dry media that looks and feels just like the real thing.

Exclusive digital art brushes

Create singular art with Painter's proprietary media, Particles that spring, flow and glow, Pattern Pens that make an unforgettable mark, and extruding Thick Texture.

Streamlined photo-painting tools

Clone your images by dipping your brush directly into the photo or letting the Auto-Painting palette rapidly paint a photo using your choice of brush and media.

Incomparable composition

Paint in perfect symmetry and perspective using built-in composition tools such as Mirror painting, Kaleidoscope, Divine Proportion, Rule of Thirds and Perspective Guides.

Who's it for?

Concept artists

Take advantage of Painter's versatility to quickly develop a concept design for a motion picture, video game art, or professional character concept art.

Illustrators

Create a character, package design or promotional piece, or publish a fantasy art illustration using all the tools you need to bring your vision to life.

Manga & Comic Artists

Choose from a wide range of sketching, drawing and inking tools, and tutorials to easily draw manga characters or comics in a spectacular world.

Photo Artists

Use powerful Auto-Painting and Cloning tools to paint photos and produce visually stunning keepsakes and sellable works of photo art.

Fine Artists

Balance the mixture of realistic natural media and supernatural media types in a way that only this digital art and painting software can deliver.

Flexible and productive

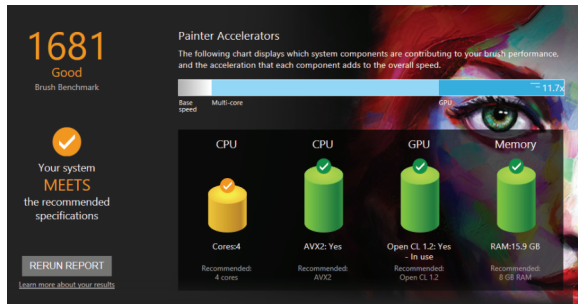

Create your own custom brushes and palettes, or import custom content from others that exponentially speeds up your artistic workflow.

Supports popular hardware and software

Open and save to .PSD. Enjoy using multi-touch or a drawing tablet with stylus tilt, rotation, bearing & pressure control plus paint on a Mac or Windows system.

Impressive new features

NEW Performance Optimization

The Brush Accelerator™ scores your system *and* applies the optimal Painter performance settings automatically allowing GPU and CPU to ensure Painter runs like a dream.

NEW Interface Advancements

Revamped Property Bars, flyouts, and palettes for brushes and tools improve painting efficiencies and intuitive advances will elevate your understanding of Painter.

NEW Improved Brush Selector

View enhanced dab and stroke previews at-a-glance, no hovering required, and enjoy more painting pixels with a slimmed down Brush Selector.

NEW Convenient Color Selection

Universally select color throughout Painter within your favorite tools plus enjoy six new color harmonies that can be saved as color sets.

NEW Advanced Brush and Tool Controls

Grab your previous brush in a flash with either the click of a button or a shortcut and enjoy painting with the eraser, doge, burn and clone tools without lag.

ENHANCED Layer Workflow

Contextual and high-level menu improvements save time and workflow tweaks to collapsing, locking, selecting and pasting increase the responsiveness of layers.

NEW and ENHANCED Brushes

Two new fast brush categories with 26 refined brushes were built to test Painter's new performance optimizations. Plus enjoy five new expressive brushes in the Watercolor and Digital Watercolor categories.
