

Rainmaker

Indoor/Outdoor Portable Launch Monitor – “Where Smarter Golf Begins.”

Short Description

Rainmaker is a portable launch monitor built to bring pro-level swing insights anywhere you practice. Using Doppler radar technology and a bright on-device display, Rainmaker delivers instant feedback on over 20 key metrics—helping golfers understand their swing, dial in distances, and improve faster. Paired with the Blue Tees LAUNCH app, it unlocks advanced analytics, immersive simulation, and connected performance insights that carry from practice to the course.

Key Highlights

- Portable Doppler Radar Launch Monitor
- Tracks 20+ Club & Ball Performance Metrics
- Radar Golf Ball Compatible for Enhanced Accuracy
- Bright 4.3" TFT Display with Instant Shot Feedback
- Indoor & Outdoor Practice Ready
- Multiplayer Practice & Simulation Modes
- Integrated Stand for Fast Setup Anywhere
- Compatible with E6 & GSPRO Simulation Platforms
- 3 Built-In Standalone Training Modes
- Pairs with the Blue Tees LAUNCH App for Advanced Analytics & Ecosystem Insights

Product Positioning

Rainmaker is the most accessible way to bring launch monitor data, simulator golf, and connected performance insights together.

It serves as the practice engine of the Blue Tees connected ecosystem.

Designed to make launch monitor technology accessible to every golfer, Rainmaker delivers reliable swing data, instant feedback, and portable performance insights in a simple, ready-to-use device.

Built for the range, the backyard, indoor practice spaces, and simulator environments, Rainmaker helps golfers turn every swing into actionable data—while syncing performance insights across the entire Blue Tees ecosystem.

Category:

Part of the Blue Tees Connected Ecosystem

Blue Tees products are designed to work together—connecting practice, play, and performance insights across devices and apps.

Rainmaker sits at the center of this ecosystem by capturing the swing data that powers smarter decisions everywhere else.

When connected to the Blue Tees LAUNCH app, Rainmaker unlocks advanced analytics, dispersion tracking, and simulation environments that help golfers understand not just how far the ball goes—but why it flies that way.

Performance insights collected during practice sync across the Blue Tees ecosystem, informing on-course decisions in the GAME app and shaping AI-powered club recommendations across devices like Captain rangefinders, Player Pro Speaker, and the Playmaker+ watch.

Portable Launch Monitor

Subcategory:

Connected Practice & Swing Analytics Device

Practice becomes progress—and every round gets smarter.

Long Description

Rainmaker is Blue Tees' first portable launch monitor—built to make pro-level swing insights accessible to every golfer.

Powered by Doppler radar technology, Rainmaker captures over 20 key performance metrics including ball speed, launch angle, spin, carry distance, and more. A bright on-device display delivers instant feedback after every shot, transforming practice sessions into real-time learning opportunities.

Designed for maximum flexibility, Rainmaker works both indoors and outdoors, allowing golfers to train anywhere—from the driving range to a backyard hitting net to a full simulator setup. The integrated carry handle converts into a stable stand for fast setup, while a detachable remote lets players start sessions, switch modes, and review shots without stepping away from their stance.

Rainmaker's portability and ease of use also make it an ideal tool for coaching, group practice, and shared training sessions. Instructors can deliver instant feedback during lessons, while golfers can practice, compete, and improve together in multiplayer sessions or simulated rounds.

When paired with the Blue Tees LAUNCH app, Rainmaker unlocks a deeper layer of analytics and simulation experiences. Golfers can visualize shot dispersion, track long-term performance trends, and explore immersive 3D range environments designed to make practice more engaging and productive.

Rainmaker also connects seamlessly with leading simulation platforms like E6 and GSPro, enabling realistic course play and multiplayer experiences at home with friends and family.

As part of the Blue Tees connected ecosystem, Rainmaker becomes the foundation of smarter golf. Practice data syncs across the platform to power insights, inform club recommendations, and shape better decisions on the course—linking practice, play, and performance into one continuous system.

Practice with purpose. Improve with data. Make every swing count.

Product Features

Metrics Tracked

- Ball Speed
- Club Speed
- Launch Angle
- Launch Direction
- Smash Factor
- Carry Distance
- Total Spin
- Total Distance
- Apex
- Back Spin
- Side Spin
- Spin Axis
- Attack Angle
- Club Path
- Side*
- Side Total*
- Hang Time*
- Descent Angle*
- Apex Time*

Construction

- Built-in Vibrant 4.3" Wide-Angle TFT Display
- Doppler Radar Technology
- Adjustable Standing Handle for Quick Setup
- IPx4 Waterproof Rating
- Detachable Magnetic Remote for Club & Session Type Selection
- Rechargeable USB-C Battery
- Up to 7 Hours Battery Life
- Radar Golf Ball Compatible

Data & Intelligence

- Customizable Grid View to Display 1, 4, or 9 concurrent metrics on device
- 3D Range & Shot Dispersion Visualization via LAUNCH App
- 3 Standalone Training Modes (Free Practice, Target Distance, & Swing Speed)
- Compatible with Popular Simulation Platforms like E6 and GSPro
- Custom "My Bag" Data Input & Blue Ecosystem Syncing via GAME App

- Landing Speed*
- Landing Spin*

**Available through the LAUNCH App only and are unique to the Blue Tees Physics engine*

- Multiplayer Support for up to 10 Players
- Onboard storage up to 1000 shots
- Ground-Up Proprietary Physics Engine for additional metrics
- Full Course Simulation
(Coming Later This Year)
