

# Nest Temperature Sensor

The right temperature, right where you want it.

Most homes aren't the same temperature in every room. With the Nest Temperature Sensor, you can let your Nest thermostat know which room should be the most comfortable. Just place it on a wall or shelf and get the right temperature, right where you want it.

## Product features

 Helps make sure a certain room is the exact temperature you want it to be.

 Put temperature sensors in different rooms. And choose which room to prioritize when.

 Place it on a wall or shelf. Then forget it's even there.

## Nest thermostats

### Nest Learning Thermostat

### Nest Thermostat E

Control from anywhere with the Nest app <sup>1</sup>		
Proven energy-saving features		
Can pay for itself in two years or less <sup>2</sup>		
Turns itself down after you leave		
Set up a simple schedule		
Works with the Nest Temperature Sensor (sold separately) <sup>3</sup>
