

- **What's the difference between the Neakasa Magic 1 vacuum steamer and the traditional clothes iron?**

Unlike a traditional iron, the Neakasa Magic 1 vacuum steamer uses AirIron Technology to grip clothes firmly and smooth wrinkles with ease.

This lets you refresh garments one-handed, without an ironing board—making it a faster, simpler way to keep clothes neat.

- **What fabrics do Neakasa steamer support?**

Neakasa Magic 1 vacuum steamer is designed for use on a variety of fabrics, including cotton, polyester, cotton, linen, jeans, fiber, silk, wool, and more.

It offers gentle yet effective steaming, which is safe for most fabrics.

- **What modes does Neakasa vacuum steamer have and what can these modes do?**

This steamer is designed with two professional ironing modes:

Gentle Ironing: Perfect for delicate fabrics such as silk or chiffon, preventing pulling or damage.

Suction Ironing: Ideal for most fabrics, combining ironing with suction power, making it easier to smooth clothes with one-hand operation.

- **How long should it take to steam clothes by Neakasa Magic 1 vacuum steamer?**

The time it takes to steam clothes depends on the fabric type and the level of wrinkles.

But with powerful suction, you can achieve smooth results in most ironing processes in just one pass, without having to iron repeatedly.

- **Can I use distilled water in the Neakasa steamer?**

Yes, distilled water is recommended to avoid mineral buildup that can occur with tap water, which may harm the machine.

Using distilled water helps maintain optimal performance.
