

MEMO BOX SMART PILLBOX

Happy,
Healthy,
Peace of Mind
When You
Take Your
Meds on Time

Memo Box Smart Pillbox leverages SMART technology to ensure medications are taken as prescribed. Supported by the Memo Health App, you can track medication, set personalized alarms, notify family members or caregivers when a dose is taken, or not taken on schedule.

Help Med Dependent Kids Be Self-Dependent

ADHD, Allergies,
Antibiotics, Vitamins

- Parents can't be everywhere all the time — get help managing children's meds.
- From required daily doses, short rounds of antibiotics or enforcing taking daily vitamins, our mobile pillbox is a great addition to any backpack.
- Track doses to prevent med sharing.

Safeguard Against the Dangers of Missing Time-Sensitive Doses

Diabetes, Parkinsons,
Transplant Patients

- A patient who misses a timed dose, risks losing motor skills resulting in injuries from a fall.
- Outcomes for treating chronic and life threatening diseases are seriously compromised or fail, when medication protocols are not followed consistently.

Remind Loved Ones Who Can't Remember to Take Meds

Alzheimer's,
Dementia

- Miss a Med, Lose a Memory — Medication is the frontline defense toward slowing the progression of these diseases.
- Inability to remember to take meds daily is a primary reason the elderly are forced into nursing homes.

Make Healthy Habits Easier to Maintain

Daily Vitamins,
Supplements
Prenatal Vitamins

- Juggling work, family and more mobile lifestyles can interfere with taking daily vitamins and supplements consistently.
- Frequent business travel and demanding schedules require taking your healthy habits on the road.
