### Setting up your Bluetooth Music Receiver

**Connecting to an output device**

Using the included 3.5 mm stereo audio cable, connect your home stereo system or other component to the AUDIO OUT jack on your Bluetooth Music Receiver.

**Digital connection**

Using an optical digital audio cable (not included), connect your home stereo system to the OPTICAL jack on your Bluetooth Music Receiver.

**Optical digital audio cable (not included)**

- 3.5 mm jack to RCA stereo audio plug adapter
- 3.5 mm stereo audio cable
- 6 ft. 3.5 mm stereo audio cable
- LED indicator
- Lights blue when paired and connected to your Bluetooth device.
- When not connected, the LED indicator continues to blink until a connection is established.
- The auto connect feature may not work with some Bluetooth devices. If this occurs, use your Bluetooth device settings menu to manually select the other paired one.

**Using an optical digital audio cable (not included)**

- 3.5 mm jack to RCA stereo audio plug adapter
- 3.5 mm stereo audio cable
- LED indicator
- Lights blue when paired and connected to your Bluetooth device.
- When not connected, the LED indicator continues to blink until a connection is established.
- The auto connect feature may not work with some Bluetooth devices. If this occurs, use your Bluetooth device settings menu to manually select the other paired one.

**Quick Setup Guide**

1. Turn on your Bluetooth Music Receiver by plugging in the AC/DC adapter and sliding the power switch to ON. The LED indicator blinks on and off slowly. Your Bluetooth Music Receiver remains on. Other devices, such as notebook computers, may ask you if you wish to connect. In this instance, the LED continues to blink until a connection is established.

2. Turn on Bluetooth on your Bluetooth device. Then, on the Bluetooth Music Receiver, to pair with your Bluetooth Music Receiver. The LED indicator on the Bluetooth Music Receiver lights blue.

3. When your Smartphone or tablet tells you that the Bluetooth Music Receiver is connected, you can begin playback.

4. To disconnect, touch your Smartphone or tablet to your Bluetooth Music Receiver again (see documentation that came with your NFC-enabled device).

### General Pairing Notes:

- Some devices, such as an iPhone, can connect immediately after pairing so the LED on the Bluetooth Music Receiver remains on. Other devices, such as notebooks, may ask you if you wish to connect. In this instance, the LED continues to blink until a connection is established.

- Your Bluetooth Music Receiver saves pairing information for up to eight devices. However, it can only be connected to and play content from one device at a time. When you turn on your Bluetooth Music Receiver, it automatically connects to the last connected device if that device is in range. To connect to a different paired device, you have to turn off Bluetooth on your current paired device and then manually connect to the other paired device.

- The auto connect feature may not work with some Bluetooth devices. If this occurs, use your Bluetooth device settings menu to manually select the Receiver from the list of found Bluetooth devices.

### Features

- *aptX®* audio decoding: The highest Bluetooth stereo audio quality possible
- Supports NFC Field Communication (NFC) for easy connection with compatible Bluetooth devices
- Optical digital audio output: The highest quality audio connection to your home stereo
- Analog stereo audio output: Easily connect to amplified speakers or any device with an audio input jack
- Wireless range up to 33 feet (10 m)
- Wall mount feature (not included)
- Remembers up to eight Bluetooth devices
- Turns off when the receiver is turned off.

### Package contents

- AC/DC adapter
- 3.5 mm jack to RCA stereo audio plug adapter
- Optical digital audio cable (not included)
- 6 ft. 3.5 mm stereo audio cable
- Bluetooth Music Receiver
- 6 ft. 3.5 mm stereo audio cable
- 3.5 mm jack to RCA stereo audio plug adapter
- 3.5 mm stereo audio cable
- Optical digital audio cable (not included)
- 6 ft. 3.5 mm stereo audio cable
- LED indicator
- Lights blue when paired and connected to your Bluetooth device.
- When not connected, the LED indicator continues to blink until a connection is established.
- The auto connect feature may not work with some Bluetooth devices. If this occurs, use your Bluetooth device settings menu to manually select the other paired one.

### Before using your new product, please read these instructions to prevent any damage.

- **Connecting power:** Plug the AC/DC adapter into a wall power outlet and slide the power switch to ON. The LED indicator blinks on and off slowly. Your Bluetooth Music Receiver remains on. Other devices, such as notebook computers, may ask you if you wish to connect. In this instance, the LED continues to blink until a connection is established.

- **Bluetooth settings:** To pair your devices using Bluetooth settings:
  1. Make sure that a compatible Bluetooth device (like a music player or phone) is turned on and within 33 feet (10 meters) of your Bluetooth Music Receiver.
  2. Turn on your Bluetooth Music Receiver by plugging in the AC/DC adapter and sliding the power switch to ON. The LED indicator blinks on and off slowly. Your Bluetooth Music Receiver remains on. Other devices, such as notebook computers, may ask you if you wish to connect. In this instance, the LED continues to blink until a connection is established.

- **Using an optical digital audio cable (not included):**
  1. Turn on Bluetooth on your Bluetooth device. Then, on the Bluetooth Music Receiver, to pair with your Bluetooth Music Receiver. The LED indicator on the Bluetooth Music Receiver lights blue.

- **When your Smartphone or tablet tells you that the Bluetooth Music Receiver is connected, you can begin playback.**

- **To disconnect,** touch your Smartphone or tablet to your Bluetooth Music Receiver again (see documentation that came with your NFC-enabled device).

### Analog connection

Using the included 3.5 mm stereo audio cable, connect your home stereo system or other component to the AUDIO OUT jack on your Bluetooth Music Receiver.

- **Not** remember up to eight Bluetooth devices
- **Not** support NFC for easy connection with compatible Bluetooth devices
- **Not** support *aptX®* audio decoding: The highest Bluetooth stereo audio quality possible

### Notes:

- **Note:** Music can be played from only one device at a time.
- **Note:** Your Bluetooth Music Receiver can connect to a Bluetooth-enabled device using the Bluetooth settings on your device or by touching your Bluetooth device to the Bluetooth Music Receiver using NFC.

### To pair your devices using NFC Fast connection:

1. Turn on your Bluetooth Music Receiver by plugging in the AC/DC adapter and sliding the power switch to ON. The LED indicator blinks on and off slowly. Your Bluetooth Music Receiver remains in pairing mode.

2. Turn on Bluetooth on your Bluetooth device.

3. Turn on your Bluetooth Music Receiver by plugging in the AC/DC adapter and sliding the power switch to ON. The LED indicator blinks on and off slowly. Your Bluetooth Music Receiver remains on. Other devices, such as notebook computers, may ask you if you wish to connect. In this instance, the LED continues to blink until a connection is established.

4. Turn on Bluetooth on your Bluetooth device. Then, on the Bluetooth Music Receiver, to pair with your Bluetooth Music Receiver. The LED indicator on the Bluetooth Music Receiver lights blue.

5. When your Smartphone or tablet tells you that the Bluetooth Music Receiver is connected, you can begin playback.

6. To disconnect, touch your Smartphone or tablet to your Bluetooth Music Receiver again (see documentation that came with your NFC-enabled device).

### General Pairing Notes:

- Some devices, such as an iPhone, can connect immediately after pairing so the LED on the Bluetooth Music Receiver remains on. Other devices, such as notebooks, may ask you if you wish to connect. In this instance, the LED continues to blink until a connection is established.

- Your Bluetooth Music Receiver saves pairing information for up to eight devices. However, it can only be connected to and play content from one device at a time. When you turn on your Bluetooth Music Receiver, it automatically connects to the last connected device if that device is in range. To connect to a different paired device, you have to turn off Bluetooth on your current paired device and then manually connect to the other paired device.

- The auto connect feature may not work with some Bluetooth devices. If this occurs, use your Bluetooth device settings menu to manually select the Receiver from the list of found Bluetooth devices.

### Final fold size 127 mm x 177.8 mm (W x H)

### Final flat size 254 mm x 177.8 mm (W x H)
Reconnecting your device: When your Bluetooth Music Receiver is not paired to a device, the LED indicator will slowly blink on and off.

When your Bluetooth Music Receiver is not paired to a device, the LED indicator will slowly blink on and off.

Options: Solutions:
- Make sure your Bluetooth Music Receiver power is on and connected to your Bluetooth Music Receiver and a power outlet.
- Connect your Bluetooth Music Receiver to another Bluetooth device.

No sound or low volume:
- Make sure that your Bluetooth device is turned on and Bluetooth is turned on, and Music Receiver is selected.
- Make sure that the cable connections are secure.
- Make sure that your Bluetooth Music Receiver is not paired to another Bluetooth device.
- If battery on your Bluetooth device is low, recharge the battery.

Cannot establish Bluetooth connection:
- Shorten the distance between your Bluetooth Music Receiver and your Bluetooth device.
- Make sure that your Bluetooth Music Receiver and Bluetooth device are both in pairing mode.
- Make sure that your Bluetooth device is not connected to any other device.
- If your Bluetooth device is not paired to another Bluetooth device, then set your device to pairing mode. Select Music Receiver on your Bluetooth device.

Troubleshooting
- Make sure that your Bluetooth Music Receiver power is on and connected to your Bluetooth Music Receiver and a power outlet.
- Connect your Bluetooth Music Receiver to another Bluetooth device.

My Bluetooth Music Receiver does not appear on my Bluetooth device:
- Make sure that your Bluetooth Music Receiver power is on and connected to your Bluetooth Music Receiver and a power outlet.
- Make sure that your Bluetooth Music Receiver power cord is plugged into an electrical outlet.
- If battery on your Bluetooth device is low, recharge the battery.

My Bluetooth Music Receiver keeps disconnecting:
- Make sure that your Bluetooth Music Receiver is not paired to another Bluetooth device.
- Make sure that your Bluetooth Music Receiver and Bluetooth device are both in pairing mode.
- Make sure that your Bluetooth device is not connected to any other device.
- If your Bluetooth device is not paired to another Bluetooth device, then set your device to pairing mode. Select Music Receiver on your Bluetooth device.

Legal notices
FCC caution: Changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

FCC statement: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
