wemo

WiFi Smart Plug

Control Your Home with Your Voice or the App

Wemo WiFi Smart Plug uses your WiFi network for wireless control of lamps, fans, and more. Simply plug it into an outlet, plug a device into the Smart Plug, and control your device using the free Wemo app or by using your voice with Apple HomeKit, Amazon Alexa, or Google Assistant.*

Voice
Control Wemo hands-free using your voice.*

Control
Control and schedule lights and appliances from anywhere.

Protect
Look like you're home even when you're not.

Stack
Space-saving design won't cover the whole outlet.

*When paired with a voice recognition device or service, sold separately.

WiFi Smart Plug

Plays Well With

works with Hey Google

Talk to Google Assistant for hands-free voice control. Pair the Smart Plug with a Google Assistant enabled device and have a conversation with Google to control your lights and appliances.

Works with Apple HomeKit

Compatible with Apple HomeKit, you can control your Smart Plug with the Apple Home app and Siri from your iPhone, iPad, Apple Watch, Mac or HomePod. Ask Siri to turn on the lights and brew your coffee when you wake up.

WORKS WITH alexa

Talk to Alexa for hands-free control over your lights and devices. Pair the Smart Plug with Alexa to turn any plugged-in device on or off with just your voice.

IFTTT

"If This, Then That" lets you do amazing things with Wemo. Visit IFTTT.com for "recipes" to make Wemo turn lights and appliances on and off based on real-world events and much more.
