

KTA-450 4 Channel PowerStack Amplifier

PRODUCT FEATURES

Compact PowerStack Design

The Alpine KTA-450 is a compact 4-channel Power Pack amplifier designed to deliver high-output performance in tight spaces. Measuring just **7" W x 3.5" H x 1.25" D**, it fits behind select Alpine head units like the iLX-W650 using the included PowerStack bracket, making it ideal for space-constrained installations.

Dynamic Peak Power (DPP) Technology

Alpine's exclusive **DPP technology** intelligently adjusts gain to deliver up to **100W DPP x 4 channels** during dynamic musical passages. This ensures clean, powerful sound without clipping, even at high volumes.

Simple, Versatile Installation

The KTA-450 features a **22-pin recessed power harness** for clean cable management and easy integration with any radio system. Its compact size allows installation in glove boxes, behind dashboards, or even in motorcycles and boats.

TECH SPECS

- **Power Output (CTA-2006):** 45W RMS x 4 (2/4 Ohm, 14.4V, $\leq 1\%$ THD+N)
- **Dynamic Peak Power (DPP):** 100W DPP x 4 (2/4 Ohm, 14.4V, $\leq 1\%$ THD+N)
- **Signal-to-Noise Ratio:** >82dB (ref. 1W into 4 Ohm)
- **Amplifier Type:** Class D

- **Dimensions:** 7" W x 3.5" H x 1.25" D
 - **Installation:** PowerStack bracket included
 - **Harness:** 22-pin recessed design
 - **Compatibility:** Designed to mount behind Alpine iLX-W650 and other 2-DIN mech-less receivers
