

CHMSL Third Brake Light Camera for Silverado and Sierra 2014-2017

Expand your field of vision without adding bulk to your truck

See what's going on in the bed of your truck. The 75° viewing angle assists in hooking up your 5th wheel gooseneck or monitoring your valuable contents.

PCAM-CHMSL-SIL14/16: A great addition to any video system when removing the factory tailgate of a Silverado or Sierra truck to facilitate connecting your gooseneck hitch or fifth wheel trailer. Only viewable while in reverse.

PCAM-CHMSL-SIL: Used when retaining the tailgate and OEM camera. Personalize the installation based on the driver's needs, with this universal option for Silverado and Sierra trucks that works with any monitor using a composite video input.

CAMERA FEATURES:

- Gain a full view of the truck bed
- 1/4" CMOS sensor
- Operates at 0.1 LUX
- 75° viewing angle
- IP67 water/debris-proof rating

rear-bed viewing

Includes

PCAM-CHMSL-SIL14 and 16: Rear viewing camera that mounts on top of the cab for a perfect view. Wiring harness with OE connector that plugs into the OE GM tailgate connector. This allows the camera image to display on the OE monitor when the truck is in reverse.

PCAM-CHMSL-SIL: Rear viewing camera that mounts on top of the cab for a perfect view. Standard composite video RCA with power and ground that works with any monitor using composite video input.
