GROUNDING INSTRUCTIONS:

This appliance must be grounded. If it should malfunction or breakdown, grounding provides a path of least resistance for electric current to reduce the risk of electric shock. This appliance is equipped with a cord having an equipment-grounding conductor (C) and grounding plug (A). The plug must be inserted into an appropriate outlet (B) that is properly installed and grounded in accordance with all local codes and ordinances.

WARNING: Improper connection of the equipment-grounding conductor can result in the risk of electric shock. Check with a qualified electrician or service person if you are in doubt as to whether the outlet is properly grounded. Do not modify the plug provided with the appliance - if it will not fit the outlet, have a proper outlet installed by a qualified electrician. This appliance is for use on a nominal 120-volt circuit and has a grounding plug that looks like the plug (A) illustrated in Fig. 1. A temporary adapter (D) may be used to connect this plug to a 2-pole receptacle (E) if a properly grounded outlet is not available (Fig. 2). The temporary adapter should be used only until a properly grounded outlet (B) can be installed by a qualified electrician (Fig. 1). The green colored rigid ear, lug, or the like (F) extending from the adapter must be connected to a permanent ground (G) such as a properly grounded outlet box cover (Fig. 2). Whenever the adapter is used, it must be held in place by a metal screw. NOTE: In Canada, the use of a temporary adapter is not permitted by the Canadian Electrical Code.

Before You Begin Cleaning

Don't use the carpet cleaner as a dry vacuum cleaner.

Use your HOOVER® portable carpet cleaner only if upholstery fabric is marked with a "W" (for "wet" clean) or "S/W" (for "solvent/dry" or "wet" clean). Don't clean fabric marked "S" ("solvent/dry" clean only).

Test for colorfastness in a small, hidden area. Gently rub surface with a dampened white cloth. Wait ten minutes and check for color removal or bleed with a white paper towel.

Move furniture out of area to be cleaned. Place aluminum foil or wax paper under legs of furniture too heavy to move to prevent wood finishes from staining carpet. Pin up furniture skirts and draperies.

ATTENTION: Some Berber, Natural Fiber, and Soft Fiber carpets can fuzz with wear. Some vacuums & carpet cleaners can worsen this carpet wear. Test a hidden area before using on a full room & consult with your carpet manufacturer on cleaning recommendations.

NOTE: To prevent staining, use plastic or aluminum foil to protect wood or metal surfaces from possible water spray.

NOTE: To avoid damage to wood floors underneath area rugs or carpet, place waterproof material (e.g. plastic underneath them) before cleaning.
