sengled snap

LED LIGHT + IP CAMERA

- Easy installation in any E27 socket and controllable via WIFI
- Selective motion detector plus infrared LEDs for night usage
- Live video, integrated microphone and loudspeaker

Lights, camera, action!

Snap combines an IP camera with energy-efficient LED light and gives you the full overview day and night whether you use it as an outdoor security camera or as a baby videophone. You can either watch the wide angled HD camera's video in the app or retrieve the scenes recorded in the cloud. Simply define the individual areas for the motion sensor and get notified whenever somebody is detected sneaking around your home.

Technical Data

Energy Supply:	100~240V AC, 50/60Hz
Lamp base:	E27
Bulb shape	PAR-38
Luminous flux:	810 lumen
Colour temperature:	3000 kelvin
Energy consumption:	max 14W
Camera:	1080p HD (140 degrees diagonal)
Operating temperature:	-20°C ~ +40°C
Connectivity:	Wi-Fi, 2.4GHz/5GHz Compatible (2x2 MIMO)
Dimensions:	14.5cm (height) x 12cm (diameter)
Weight:	575g
