# Important Information

This adapter is designed for the use of wireless CarPlay with iPhones running ios 10 or newer through vehicle infortainment systems that have built-in Apple CarPlay. Refer to the next page for how to check if your vehcile has built-in CarPlay.

However, NOT every vehicle with built-in Apple CarPlay is compatible with this adapter. If you encounter any issues while using this adapter, please do not hesitate to contact us.
| Function | Convert OEM Apple CarPlay to wireless Apple CarPlay |
| --- | --- |
| Compatibility | Car: With OEM Apple CarPlay |
| | iPhone: Running ios 10 or newer |
| Control | OEM touchscreen, steering wheel, and joy stick control |
| Input Power | USB 5V |
| Connectivity | Wi-Fi & Bluethooth |

# How To Check If A Car Has CarPlay

1. Plug your iPhone (running iOS 10 or newer) into the car USB port with the provided lightning cable. If your car has built-in Apple CarPlay, a notification like the one below will pop-up on your iPhone.

**Allow CarPlay with "▮▮▮▮▮▮" while phone is locked?**

Your contacts and other information will appear on this car's display without unlocking your iPhone.

| Not Now | Allow |
| --- | --- |

2. Look for the icons below on the menu of your vehicle's infotainment system. If you see either of the two icons, then your vehicle has built-in Apple CarPlay.

or

3. If you're unsure whether or not your vehicle has built-in Apple CarPlay, contact your car dealer for further assistance.
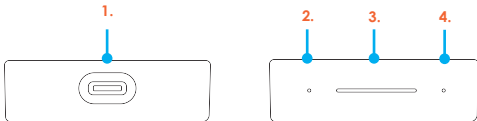

# What's in the box?
