ABOUT YOUR SOFTSTEP TRASH CAN

SoftStep is the softest step you will experience in a trash can. The ergonomically-designed pedal requires minimal force to operate. The gentle lid close is smooth and silent. The easy to replace air damper means this step trash can will provide years of like-new performance.

It also features a removable inner bucket for quick and easy emptying. The elegant, brushed stainless steel finish is fingerprint-proof, smudge-resistant, and easy to clean.

SoftStep provides all of the elegance, convenience, and durability you could hope for in a trash can!

ATTENTION

1. Clean the trash can body only with products safe for use on stainless steel.
2. Do not press or force the lid to close. Lid will close automatically after you release the pedal.
3. Ensure there is enough room to operate the trash can without blocking the opening and closing of the lid.
4. Do not overstuff trash bag. It may cause tearing or difficulty removing.
