▲ Notes:
 • The headphone will directly enter pairing mode when used for the first time or after a factory reset. Otherwise, please follow the pairing instructions to enter pairing mode and pair with your device.
 • You must pair the headphone with your device first before use.

Reset
 When the headphone is charging, press and hold the Multifunction button until the LED indicator slowly flashes in red and blue for 3 times. This indicates the headphone has been reset.

Controls

Answer Phone Call	Press the Multifunction button once
Reject Phone Call	Press and hold the Multifunction button for 1 second to reject incoming phone call
Next / Previous Track	Press and hold the Volume + / - button for 2 seconds
Adjusting Volume	Press the Volume + / - button to increase / decrease the volume
Play / Pause	Press the Multifunction button during music play
Redial Last Number	In standby mode, double press the Multifunction button
Mute/Un-mute	During phone call, double press the Multifunction button

Transfer between the Headphone and Paired Phone
 During a phone call, press and hold the Multifunction button for 1 second to transfer the call back to your phone, so you can talk on the phone instead of the headphone. Do it again to transfer back to the headphone.

Voice Assistant
 In standby mode, press and hold the Multifunction button for 1 second to activate phone Voice Assistant. (e.g. Siri for iOS devices).

Pair with Two Devices Simultaneously
 1. Follow the previous instructions in the "Pairing" section to pair the PHOBOS with your first device. Once pairing is successful, turn off the headphone.
 2. Enter pairing mode again by pressing and holding the Multifunction button for 5 seconds. Then pair the headphone with your second device.
 3. From the Bluetooth® devices list on your first device, tap on "TaoTronics Phobos" to connect with the headphone again.
 4. To switch between the two paired devices, simply pause the music on the first device and play music on the second device or vice versa.

▲ Note:
 The Bluetooth® headphone can remember previously paired devices. Simply turn on your devices and the headphone, both of your devices will connect with the headphone automatically without going into pairing mode.

Phone Calls with Two Devices Connected
 When connected with two phones at the same time, press the Multifunction button once to answer incoming phone calls, press the Multifunction button once again to answer incoming calls on the other phone without disconnecting the current call. Press the Multifunction button twice to switch between the calls on both devices without hanging up.

FAQ

Q: My headphone will not switch on.
 A: Please recharge it and make sure it has enough power. Plug the unit to a charger and see if the power button becomes solid red.

Q: Why can't I pair this headphone with other Bluetooth® devices?
 A: Please check the following pairing points:
 • Make sure your Bluetooth® device supports A2DP profile
 • Make sure the headphone and your device are next to each other or within 3 feet
 • You must get the headphone into pairing mode with indicator flashing blue and red alternately
 • Try to reboot your Bluetooth device

Q: I tried to connect to TaoTronics PHOBOS, but my device says "Connection failed"?
 A: Please make sure:
 • Your device supports the Bluetooth® stereo profile "A2DP"
 • Try to clear the TaoTronics PHOBOS pairing memory by resetting it (see "Reset" section)
 • Delete TaoTronics PHOBOS from your device search result and connect again

Care and Maintenance

- Charge the headphone at least once every 6 months
- Keep away from liquid, moisture, fire and extreme heat
- Do not dismantle the headphone
- Do not drop or knock your headphone on hard surfaces
- Do not use chemicals or detergents to clean the product

Statement
 We can only provide after sale services for products that are sold by TaoTronics or TaoTronics authorized retailer and distributor. If you have purchased your unit from a different place, please contact the seller for return and warranty issues.

NOTE:
 This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
 • Reorient or relocate the receiving antenna.
 • Increase the separation between the equipment and receiver.
 • Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 • Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
 (1) This device may not cause harmful interference, and(2) this device must accept any interference received, including interference that may cause undesired operation.
