9.0 EU Battery Regulation

This symbol on the battery(ies) or on the packaging indicates that the battery(ies) provided with this product shall not be treated as household waste. Instead, please separate battery(ies) from other types of waste and recycle it (them) through your local recycling system to protect environment and health. (When Cd is more than 20ppm or Pb is more than 40ppm, the chemical symbol of the excess substance shall be marked under the separate collection symbol) For more detailed information about recycling of this battery(ies), please contact your local authority or the shop where you purchased the product or battery(ies).

10.0 FCC Compliance Statements

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

11.0 ISED Compliance Statements

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

(1) This device may not cause interference.

(2) This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

(1) L'appareil ne doit pas produire de brouillage;

(2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

This equipment complies with IC RSS-102 radiation exposure limits set forth for an uncontrolled environment.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. Cet équipement est conforme aux limites d'exposition aux radiations IC CNR-102 établies pour un environnement non contrôlé. Cet émetteur ne doit pas être colocalisé ou fonctionner en conjonction avec une autre antenne ou un autre émetteur.

12.0 CE-DOC

Hereby, [Manufacturer] declares that the radio equipment type [Model No.] is in compliance with Directive 2014/53/EU.

The full text of the EU declaration of conformity is available at the following internet address: [www.tozostore.com](http://www.tozostore.com)

2.5-5.0 W

The power delivered by the charger must be between min 2.5 Watts required by the radio equipment, and max 5.0 Watts in order to achieve the maximum charging speed.

Warning!

1. Do not dismantle or refit the product to avoid malfunction or fire hazards.

2. Keep away from corrosive liquids.

3. Keep away from extreme ambient temperatures below -10°C or above 50°C.

4. Keep away from children and pets.

5. Do not touch the earbuds with sharp objects.

6. Do not use the product in thunderstorm weather.

7. If it has not been used for more than a month, please charge and maintain it in time to ensure that it is safe.

8. Since the Bluetooth signal cannot be transmitted underwater, swimming, diving will cause the signal disconnected or intermittent.

SPECIAL REMINDER:

Wipe the hardware contacts of the headset and charging box when the headset is not charging.

4.3 Reset

If you accidentally get only one earbud work, or fail to pair each other, please reset it:

1. Take out two earbuds from the charging compartment, and when the red and blue lights alternate, quickly touch any earbuds 5 times.

2. If the red light remains on for a long time and goes out, and the earbuds are turned off, it indicates that the factory settings have been successfully restored.

NOTE: If there is a prompt indicating unsuccessful connection on your phone, please delete all [anybuds Dots] connection records and try connecting again.

5.0 Charging

5.1 Charging the earbuds

1. Put the earbuds into the charging case, they will power off & be charged automatically. When the red LED lights up, it means that the earbuds are being charged from charging case.

2. The red light will turn off when the earbuds are fully charged.

5.2 Charging the charging case

Please use the 5V/1A adapter to charge the charging case, which can be charged with a computer USB or other USB interface charger.

5.3 Charging warning

Don't tap the earbuds touch button while in charge, otherwise it will fail to pair. Then you should follow the reset to factory settings.
