1. After power on, the yellow display shows bt and frequency flashing alternately.
2. After the pairing is successful, the screen displays bt will be on.
3. Long press the  button to enter the frequency modulation mode (display digital frequency).

Basic Operations

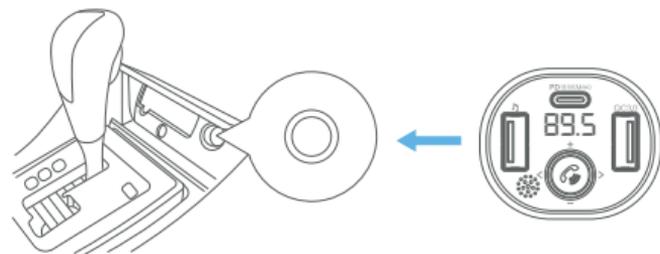

1. FM and Wireless Pairing

Note:

In order to let you enjoy higher-quality music, you need to adjust the blank frequency of FM3 to be the same as that of the car (non-local broadcast channel) when using it for the first time. Every time you use it, please make sure that the frequency between the transmitter and your car is the same (not the local broadcast channel).

- 1.1. Turn the car radio to a blank frequency point (that is, a channel without any broadcasting). The reference is: clear rustling,
- 1.2. Long press the  button for 2 seconds, the number flashes, and it enters the FM mode. Click left and right to increase or decrease the frequency and adjust to the same frequency as the car radio, such as: FM 88.8. Click the  button again or wait 3 seconds to exit the FM mode.
- 1.3. **Wireless connection:**
 - A. After powering on, the screen of FM3 displays HI, and then displays the current car battery voltage. After 2 seconds, it enters the bt state, which means it enters the pairing state, waiting for pairing.
 - B. Turn on the Wireless of the smart device, search for "FM3", and then connect. After connecting, the screen will display bt long on, and you can play music via Wireless. Usually the connection will be automatically paired but sometimes it will ask you to enter a password. If prompted, enter the initial password "0000".

When used for the second time, FM3 will connect to the last device connected last time.

2. Wireless hands-free function

- Answer the call: Click the  button.
- Hang up the call: Click the  button.
- Last replay: Double click the  button.
- Reject the call: Long press the  button for 2 seconds.
- Switch private calls: Press and hold the  button for 2 seconds during the call.

3. Music function

Note:

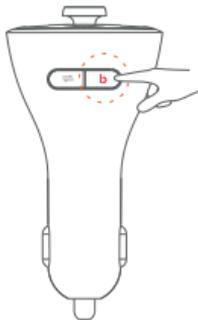

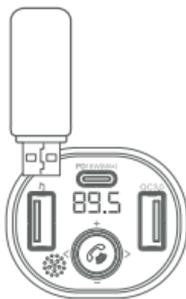

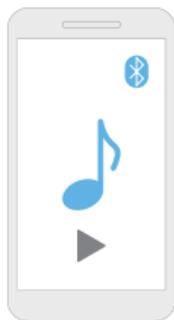

Please make sure the connection is successful before use.

Suggestion: Contact customer service for help

(Waste electrical & electronic equipment)

The label on the product or literature indicates that it cannot be disposed of with household waste at the end of its useful life.

To prevent the impact on the environment or human health caused by improper waste disposal, please separate this from other wastes and recycle them to promote sustainable development.

Friendly reminder

After receiving the product, do not rush to insert the product into the cigarette lighter jack of the car. After starting the car, first turn on the idle FM radio and patiently select a blank channel with no local programs on the car radio. The standard is a slight rustle. Then insert the product into the cigarette lighter jack and adjust the FM frequency of the product to be the same as the FM frequency of the car. At this time, the car radio will be very quiet, without static electricity interference. (If it is still not quiet, please try to find a new blank channel again), and finally connect to your phone via wireless. When they are successfully paired, you can listen to songs on your phone and make hands-free calls on your phone.

Warranty & Support

Warranty

The Rexing FM3 comes with a full 12-month warranty. If you register your product on our official site (<https://www.rexingusa.com/support/registration>), you can extend the warranty to 18 months.
