

DENON DHT-S516H

SOUND BAR AND WIRELESS SUBWOOFER WITH HEOS BUILT-IN

UPGRADE TO THRILLING HOME THEATER SOUND

Add outstanding dimension, clarity and power to your favorite movies, music and video games with the Denon DHT-S516H sound bar and wireless subwoofer with HEOS Built-in. The Denon DHT-S516H features bi-amplified mid-woofers and tweeters with advanced DSP processing, Hi-Res audio playback support, plus a powerful wireless subwoofer. Enjoy single-wire connection to your TV with included HDMI input and output with Audio Return Channel (ARC). Dolby Digital, Dolby Digital Plus and DTS decoding for immersive sound. Stream your favorite music services wirelessly with HEOS Built-in, AirPlay 2 and *Bluetooth*®. Hands-free convenience thanks to Amazon Alexa voice control. All cables are included for simplified setup.

HIGHLIGHTS

YOUR BENEFITS

Immersive audio	Experience immersive home theater sound with the DHT-S516H sound bar and powerful wireless subwoofer
Premium digital amplification	Two bi-amplified mid-woofers and two tweeters with four channels deliver the Denon premium sound
Wireless subwoofer	Included subwoofer wirelessly connects to the sound bar for deep, impactful bass
Home theater sound	Supports Dolby Digital, Dolby Digital Plus and DTS decoding surround sound formats
Advanced DSP processing	With a powerful 400 MHZ 32-bit floating point DSP engine — the same processor found in premium Denon AV receivers, enjoy enhanced sound quality
HDMI in/out with Audio Return Channel (ARC) support	Experience entertainment exactly as it was engineered from your TV to AV receiver communication while decoding Dolby Plus audio
Expansive driver array	Dual soft dome tweeters with neodymium magnets deliver extended treble response with wide dispersion
Enjoy your music when you want it	Stream popular music services via AirPlay 2, <i>Bluetooth</i> and HEOS Built-in technology
Voice control	Use your voice to control music and other sound bar functions with the HEOS Home Entertainment Skill app and your Amazon Alexa device

DENON 100+ YEAR “LEGACY OF FIRSTS” IN AUDIO TECHNOLOGY

Powerful Home Theater Sound

Two bi-amplified mid-woofers, two tweeters, and advanced DSP processing paired with a powerful wireless subwoofer with two drivers add dimension and depth to your favorite movies and TV shows.

HDMI In/Out with Audio Return Channel (ARC)

HDMI input and output features Audio Return Channel (ARC) for single cable connection from the sound bar to your TV. Supports 4K with HDCP 2.2, Dolby Vision and HDR10.

Works with Most TV's and TV Remotes

Never worry if the DHT-S516H will work with your TV or not; the included HDMI and Optical cabling makes certain your sound bar is compatible with any source. The included IR blaster and HEOS IR learning function allows for control with your TV remote if the sound bar is blocking its IR receiver (sensor).

Stream Music via AirPlay 2, Bluetooth and HEOS Built-in

Stream music effortlessly with Apple AirPlay 2 compatibility and built-in *Bluetooth* technology. And because it works as a HEOS speaker, you can wirelessly stream music in one room or with other HEOS products, controlling it all with the free HEOS Home Entertainment Skill app.

Amazon Alexa Voice Control

With Amazon Alexa support you can control music from your favorite music streaming services — Pandora, Spotify, Amazon Music and much more — with your voice using the free HEOS Home Entertainment Skill app and your Amazon Alexa device (ex. Echo, Dot). To start streaming with Alexa voice commands, simply open the Alexa app and select “Skills.” Add HEOS Home Entertainment to enable. Then, go to Smart Home in the Alexa app menu and choose Devices and Discover. Or say “Alexa, discover my devices.”

HEOS Multi-Room Streaming

HEOS Built-in technology lets you enjoy your favorite music in any room of your home for a complete wireless, whole-home audio experience. Play the same song in every room, or select a different song for each connected room — the choice is yours. Enjoy music from Spotify, TuneIn Internet radio, SoundCloud, TIDAL, Napster, Deezer, or your local music file libraries. With additional HEOS components, like HEOS-capable receivers, you can play all your music in just one room or many.

Supports Popular Surround Sound Formats

Supports Dolby Digital, Dolby Digital Plus and DTS decoding for an immersive surround sound experience.

High-Resolution Audio Playback

Enjoy the ultimate music listening experience with high-resolution playback, whether you stream over your network or plug in a USB to play previously saved tracks. Supports WMA (up to and including 192kbps AAC), MP3 (up to and including 320kbps), WAV, ALAC and FLAC (up to and including 24-bit/192kHz), and DSD: 2.8MHz or 5.6MHz.

Movie, Music and Night Modes

The DHT-S516H features pre-set EQ modes optimized for movie and music listening. Select the Movie mode to punch up the bass of an action scene or to make dialogue sound clearer. Choose the Music mode for a wider soundstage and even dispersion. Or, switch to Night mode for lowered bass and clear dialogue when it's time to quiet things down.

Wall-Mountable

Easily mount the sound bar to a shelf or wall — the choice is yours.
