

8" WiFi Digital Photo Frame with Touchscreen LCD Display

Quick Start Guide

model AWDMPF208F

qsg Q10408 Copyright © 2016 Aluratek, Inc. All Rights Reserved.

Operating Instructions

5. Go to Settings>Device Info from the frame's main menu.

For RM Name, create a nickname for your frame to easily identify which frame is which in case you have more than one wifi frame. After you have filled out both fields, please click "TO Bind".

6. You will see below message after the request is sent.

Operating Instructions

7. You will then see the below confirmation message. You will also receive a message on the frame showing that your facebook account is linked to the frame.

8. Congratulations! Your Facebook account is now linked to the frame. From now on, every picture that you post to your Facebook will be pushed to the WiFi Frame directly without any extra steps.

Operating Instructions

Step 1: Connecting to a wireless network

AWDMPF208F scans for available Wi-Fi networks and displays the names of those it finds when it is powered on when it is powered on. Secured networks are indicated with a Lock icon. If AWDMPF208F finds a network that you connected to previously, it connects to it automatically. If not:

1. Touch the Network you want to connect to
2. Use the keyboard to enter the Password
3. Touch Connect
4. Touch > to continue to next step

Step 2: Link your frame to your Facebook

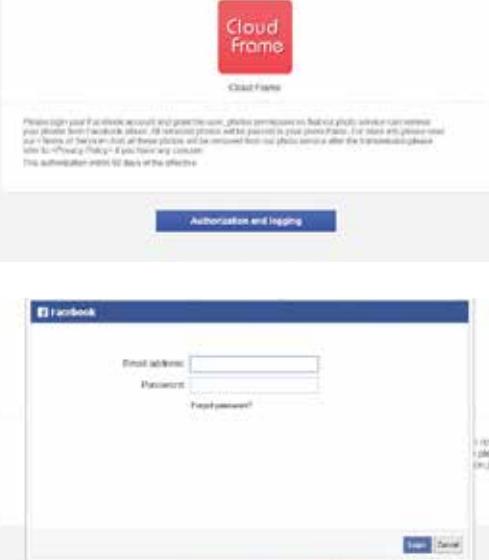

How to link the frame to your Facebook account so that pictures from your Facebook page will show automatically on the frame after you post it.

1. You can either scan the QR Code on the frame using your smart phone or type <https://m.facebook.com/AWcloudalbum/> on a browser using any device.

2. Click on "USE APP".

3. Click on "Authorization and logging".

4. Please login to your Facebook account. If you are already logged in on this computer, you will not need to login again and you will be directed to the next step directly.

Radio and TV Interference Statement

WARNING!!! This equipment has been tested and found to comply with the limits of a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by whatever measures may be required to correct the interference.

Warranty

Aluratek warrants this product against defect in material or workmanship for **1 YEAR** from the date of purchase.

This warranty becomes invalid if the factory-supplied serial number or "warranty void" sticker has been removed or altered on the product.

This warranty does not cover:

- A) Cosmetic damage or damage due to acts of God
- B) Accident, misuse, abuse, negligence or modification of any part of the product.
- C) Damage due to improper operation or maintenance, connection to improper equipment, or attempted repair by anyone other than Aluratek.
- D) Products sold AS IS or WITH FAULTS.

IN NO EVENT SHALL ALURATEK'S LIABILITY EXCEED THE PRICE PAID FOR THE PRODUCT FROM DIRECT, INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES RESULTING FROM THE USE OF THE PRODUCT, IT'S ACCOMPANYING SOFTWARE, OR IT'S DOCUMENTATION.

Aluratek makes no warranty or representation, expressed, implied, or statutory, with respect to its products, contents or use of this documentation and all accompanying software, and specifically disclaims its quality, performance, merchantability, or fitness for any particular purpose. Aluratek reserves the right to revise or update its product, software or documentation without obligation to notify any individual or entity.
