Features & Benefits

What is ActiveSmart™?

ActiveSmart™ consists of a microprocessor, interior temperature sensors, independently controlled variable speed fans and multiple air ducts. The microprocessor controls how the refrigerator operates based on changing patterns of use.

Sized to Suit

Available in multiple widths, these fridges are sized to suit families and kitchens, large and small. Designed to fit easily in your kitchen, they can sit flush with your bench top with a range of ultra flat or curved doors. Concealed hinges on many models add to a clean, refined appearance.

Easy Cleaning

Removable, spill safe glass shelves are easy to clean and contain drips and spills. Storage bins and EZKleen stainless steel doors just need a wipe to keep spotless.

Efficient

ActiveSmart™ fridges intelligently adapt to daily use to save energy, cooling, defrosting and using energy only when they need to, without compromising on foodcare.
