

ECHOMASTER

WIRELESS BACK-UP CAMERA

FOR ANY VEHICLE WITH AN RCA INPUT • SIMPLE TWO WIRE CONNECTION*

- ◆ **SIMPLIFIES REVERSING**
- ◆ **WATER RESISTANT**
- ◆ **EASY INSTALLATION**

CAM-WLP

Camera mounts behind license plate

Eliminate blind spots behind a vehicle easily with the universal wireless back-up camera from EchoMaster. CAM-WLP is a universal back-up camera that easily installs into any vehicle with a simple two wire connection – two wires in the front and two wires in the back.

The wireless camera will transmit a high quality 140° viewing angle from behind the vehicle to an aftermarket double din radio, monitor, or mirror monitor – anything with an RCA. Adding a back-up camera can improve driver awareness, creating a safer and more informed driving experience.

KEY FEATURES

- Easy add-on to double din radio installation
- No wires to route front to back
- 2.4 GHz wireless video with digital encryption
- 140° viewing angle
- Water/debris-proof rating: IP67
- 0.1 LUX
