

QUICK SETUP GUIDE

6-in-1 Charging station

NS-MP570W6IN1W24

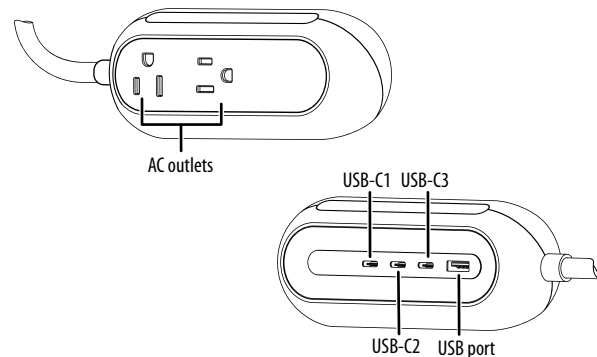

PACKAGE CONTENTS

- 6-in-1 Charging station
- Quick Setup Guide

FEATURES

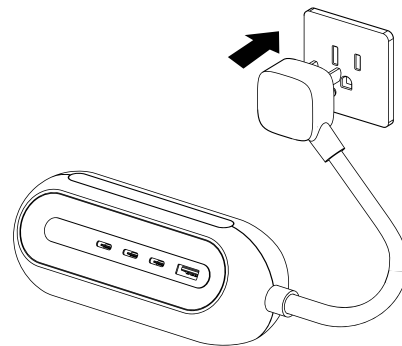

- Powers up to six devices simultaneously
- Two USB-C ports with Power Delivery (70W max) quickly charge your smartphones, tablets, laptops and more
- One low profile USB-C port (15W max) to charge small power devices, e.g. Apple Watch, AirPods, etc.
- One USB port (12W max) charges an additional device
- Two AC outlets power your electrical devices
- GaN technology provides more power than traditional silicon chargers, and fast charging while reducing the heat in a more compact design
- Supports Programmable Power Supply (PPS), which allows your charger to intelligently adjust the charging speed, based on what the device needs
- A faster and safer way to charge your device
- 5 ft. (1.5 m) cord provides flexible placement options

OVERVIEW

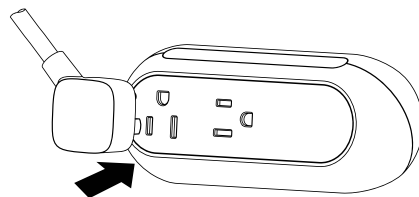

USING YOUR CHARGING STATION

Plug the charging station into a standard wall outlet.

Plug your devices into the AC outlets, USB-C ports, and USB port on your power strip.

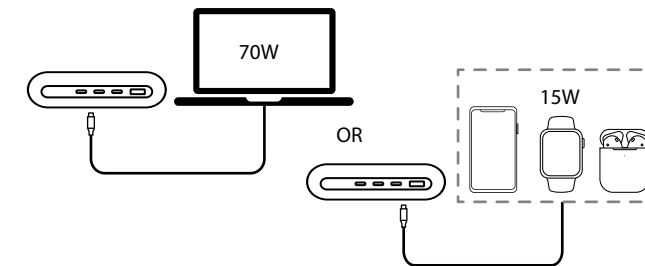

USB ports

The first two USB-C ports are more suitable for laptops and tablets. The third USB-C port and the USB port are suitable for smartphones, smartwatches, and earbuds.

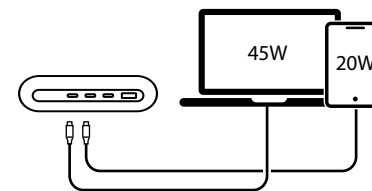

One port charging

The first two USB-C ports provide up to 70W of power when used alone (recommend for laptops). The last two ports provide up to 15W of power when used alone (recommend for phones, watches, AirPods).

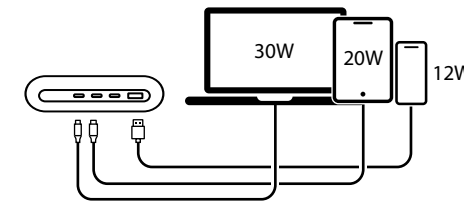

Two ports charging

USB-C1 provides 45W (max), and USB-C2 provides 20W (max) when both ports used together.

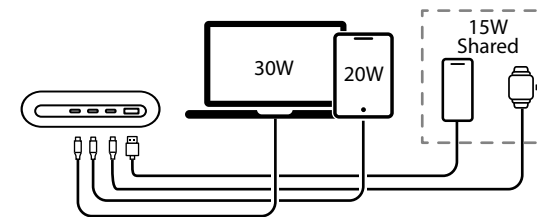

Three ports charging

When using three ports, USB-C1 provides 30W (max), USB-C2 provides 20W (max), USB-C3 provides 15W (max), and USB port provides 12W.

Four ports charging

When using four ports, USB-C1 provides 30W (max), USB-C2 provides 20W (max), USB-C and USB port share 15W when used together.

SPECIFICATIONS

- **Dimensions (H × W × D)** 5.7 × 2 × 2.3 in.
(145 × 53 × 59.3 mm)
- **Power cord length:** 5 ft. (1.5 m)
- **Weight:** 18.3 oz. (520 g)
- **Input:** 125V~ 60Hz, 15A, 1875W Max
- **Outlet Output:** 125V~ 60Hz, 15A Max
- **USB Output:** Total 70W Max
- Use One USB Port:**
USB-C1/C2: 5V/3A, 9V/3A, 15V/3A, 20V/3.5A
(PPS) 3.3-21V/3.5A, 70W Max
USB-C3: 5V/3A, 15W Max
USB-A: 5V/2.4A, 12W Max

Use Two USB Ports:
USB-C1 + C2: PD 45W + PD 20W
USB-C3 + USB-A: 5V/3A, 15W shared
USB-C1/C2 + C3: PD 45W + 5V/3A
USB-C1/C2 + USB-A: PD 45W + 5V/2.4A

Use Three USB Ports:
USB-C1 + C2 + C3: PD 30W + PD 20W + 5V/3A
USB-C1 + C2 + USB-A: PD 30W + PD 20W + 5V/2.4A
USB-C1/C2 + (C3 + USB-A): PD 45W + 5V/3A

Use Four USB Ports:
USB-C1 + C2 + (C3 + USB-A): PD 30W + PD 20W + 5V/3A

TROUBLESHOOTING

My device isn’t charging.

- Make sure that the charging station is securely connected to the wall outlet.
- Make sure that your device is securely connected to the charging station.

My device is charging slowly.

- Make sure that the power requirements of your device match the Power Delivery of the charging station.
- Stop using your device while it is charging.
- Close apps that run in the background on your device.
- Devices may start charging slower as they get older. This is normal.

SAFETY INFORMATION/CAUTION

READ ALL INSTRUCTIONS BEFORE USING.

- THIS PRODUCT IS NOT A VOLTAGE CONVERTER. Use this charging station only if the power outlet voltage is within the range of your device’s voltage. Using this charging station with an incompatible device and power outlet may result in a risk of fire, electric shock, injury to persons, or damage to the device.
- Always disconnect the charging station and the device from the power outlet when not in use.
- Do not expose the charging station to high temperatures or humid environments.
- Do not place the charging station into a fire or submerge it in liquid.
- Do not disassemble the charging station.
- Avoid external shocks.
- The charging station will heat slightly when charging and discharging. This is normal.
- Do not operate the charging station with wet hands.
- Keep out of reach of children.
- Indoor use only

CAUTION: To reduce the risk of electric shock – Use only indoors

CAUTION: Risk of electric shock. Do not plug into another relocatable power tap or an extension cord.

CAUTION: USE ONLY IN DRY LOCATIONS

LEGAL NOTICES

1.FCC Caution:

Changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

FCC Statement: This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules.

Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

2. CAN ICES-003 B/NMB-003 B
