

Model SN6147

Cordless/Corded Answering System with big buttons and display

Voice Announce® Caller ID

Always know who's calling, even when you're in the other room. All devices announce the names of your callers through the speakerphones.

Line Power Mode

Make and receive calls using the corded handset and base keypad during an outage. This system uses power generated from the telephone line so backup batteries are not necessary.

Photo Dial

Never forget whose number is whose. Program four frequently dialed phone numbers and attach a photo to each one for convenient speed dialing.
