

Quick Start Guide

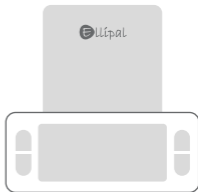

Set up Your X Card

1. Turn on the Starter, insert X Card with the chip side up.
2. Create or recover a wallet to set up your X Card.
3. Keep the Starter powered on while in use.

Why Use the X Card Starter?

Ensures offline seed generation and recovery, keeping your private key secure from online threats.

Connect to the ELLIPAL App

1. Download and open the ELLIPAL App.
2. Tap "Connect to Cold Wallet" and select "Connect X Card."
3. Ensure your X Card is properly set up, then tap it on your phone to complete the connection.

Attention

1. ELLIPAL X Card Starter has a built-in battery. Keep away from fire, water, and extreme conditions.
2. Do not cut, crush, bend, or disassemble the ELLIPAL X Card Starter, as it may cause permanent damage and cannot be restored.
3. Keep X Card dry and wipe water immediately to avoid chip damage.

Daily Use of X Card

1. No Starter needed after setup.
2. Simply tap your X Card on the phone to sign a transaction. It's that easy!
3. Use the Starter to reset your X Card if you forget your Card-PIN or want to switch to a new wallet anytime.
