QUICK SETUP GUIDE

Slimline Metal Surge Protector

NS-HW550

Final flat size: 10.5 × 10 in. (266.7 × 254 mm)
Final fold size: 3.5 × 10 in. (88.9 × 254 mm)

OVERVIEW

PACKAGE CONTENTS

- Surge protector
- *Quick Setup Guide*

FEATURES

- Slim metal housing fits into tight spaces while providing maximum durability
- 540 J rating protects your electronics from power surges
- Eight wide-spaced outlets easily fit large plugs
- Two USB ports (2.4A total output) provide additional power options
- 6 ft (1.8 m) heavy-duty cord reaches where you need it
- Circuit breaker with status light protects from power overloads
- Integrated mounting bracket lets you easily attach to a wall, furniture, or other surfaces

USING YOUR SURGE PROTECTOR

- 1** Plug your surge protector into a standard (125V) wall outlet. If the protected LED indicator doesn't light, make sure that the power switch is in the **ON** position. The power switch is inside a button cover to prevent the switch from accidentally turning on or off. To open the cover, firmly grasp the flap on the cover and pull up on the bottom corner (on the side closest to the top power outlet). To close the cover, push it down until it clicks into place. For your safety, do not use a metal object to open the cover.
- 2** Plug up to eight devices into the surge protector's outlets. You may need to push firmly to insert the plug.
- 3** If needed, mount your surge protector using the mounting holes located on both ends of the surge protector.

UNDERSTANDING LED INDICATORS

- **Protected LED indicator:** Lights to show that your devices are protected from power surges. If this LED doesn't light, your surge protector cannot absorb additional power surges, and you need to replace your surge protector.

Before using your new product, please read these instructions to prevent any damage.

SPECIFICATIONS

- **Dimensions without power cord (LxWxH):** 36.6 × 1.5 × 1.4 in. (930 × 40 × 37 mm) The length includes the attached mounting brackets.
- **Weight:** 2.4 lbs (1.1 kg)
- **Plug style:** USA 3 pin, 180° plug
- **Cord length:** 6 ft. (1.8 m)
- **Total outlets:** 8 AC and 2 USB
- **Surge suppression:**
 - **Maximum energy dissipation:** 540 joules
 - **Maximum surge current:** 36,000 amps
- **Surge protection:** 3 lines (L-N / L-G / N-G)
- **Clamping voltage:** L-N / L-G / N-G = 500 volts each
- **EMI/RFI noise filtering:** Up to 40 dB
- **Load rating:** 15 amps (for all connected devices combined)
- **Line voltage:** 125V AC @ 60 Hz
- UL-1363 and UL-1449 certified

SAFETY INFORMATION

- **RISK OF ELECTRIC SHOCK** - Use only in dry locations and only indoors.
- **DO NOT** plug into another relocatable power tap.
- **DO NOT** “daisy chain” surge protectors.
- **DO NOT** use with any aquarium equipment.
- **DO NOT** use if correctly grounded outlets are not available.
- **DO NOT** install this device if there is not at least 30 feet (10 meters) or more of wire between the electrical outlet and electrical service panel.
- This device features internal protection that will disconnect the surge protective component at the end of its useful life, but will maintain power to the load – WHICH WILL BE UNPROTECTED. If you don't want your equipment at risk, follow the manufacturer's instructions for replacing the device.
- **DO NOT** use in any circumstance that would affect the operation or reliability of life support equipment, any medical applications, or patient care.
