# logitech G

G502 LIGHTSPEED

Wireless Gaming Mouse

PLAY AT LIGHTSPEED.

The iconic G502 is completely redesigned from the inside out with LIGHTSPEED wireless and POWERPLAY compatibility. Now you can game faster and more accurately. G502 LIGHTSPEED is built with superfast 1 ms wireless connectivity and a next-gen HERO sensor delivering 16k DPI class-leading performance and energy efficiency—get up to 60 hours of uninterrupted gaming.[2] 11 programmable buttons help you optimize game-play with custom keybinds and macros. Primary buttons feature metal spring tensioning for fast and crisp actuation. Six adjustable weights let you find the right mouse feel. LIGHTSYNC RGB gives you ~16.8 million colors to create an exciting and immersive gaming environment. The hyper-fast scroll wheel lets you speed through long menus and documents. Pair with the Logitech G POWERPLAY charging system (sold separately) for infinite charging.

Customizable LIGHTSYNC RGB lighting
Fully customize RGB lighting from nearly 16.8 million colors, synchronize lighting with your gameplay, and create your own personal RGB animations.[1]

11 Programmable Buttons
Simplify in-game actions with single-click custom macros, sequences of clicks, on-the-fly DPI shifting and more.[1]

HERO 16K Sensor
Next-gen sensor delivering 16k DPI class-leading performance, accuracy and energy efficiency— get up to 60 hours of uninterrupted gaming.[2]

LIGHTSPEED Wireless
Ultra-fast and reliable Logitech G USB wireless technology trusted by esports pros worldwide.

Balance and Weight Tuning
Six removable weights let you customize mouse weight and balance for just the right feel.

POWERPLAY Compatibility
Works with POWERPLAY charging system (sold separately) for infinite charging without wires.
