- Phillips screwdriver
- Level
- Socket wrench with 1/2 in. socket or adjustable wrench
- Pencil
- Stud finder
- Awl

M4 Bag

M6 Bag

Lag Bolt Bag

1 Attach the TV brackets

Option 1: Attaching to a TV with a flat back surface

Attach the left and right TV brackets (B and C) to the back of the TV using: The M4 washers (G) and the M4 screws (D).

Or

The M6 washers (L) and the M6 screws (H or I).

NOTE: Determine if there is sufficient space between the back of the TV and the wall to connect all your cables before proceeding. You may need to use the optional spacers to allow more clearance between the back of the TV and the wall.

Option 2: Attaching to a TV with a rounded back surface

Attach the left and right TV brackets (B and C) to the back of the TV using: The M4 spacers (F), M4 washers (G), and the M4 screws (E).

Or

The M6 spacers (K), M6 washers (L), and the M6 screws (J).

2 Install the wall plate

Option 1: Installing to a wood stud wall

- 1 Locate the stud. Verify the center of the stud with an awl or thin nail or use an edge to edge stud finder.
- 2 Level the wall plate (A) and mark the hole locations.
- 3 Drill the pilot holes as illustrated.
- 4 Align the wall plate (A) with the pilot holes, then place the washers (N) over the holes. Insert the lag bolts (O) through the washers, then tighten the lag bolts only until the washers are pulled firmly against the wall plate. DO NOT over-tighten the lag bolts (O).

CAUTION: Avoid potential injuries or property damage!

Any material covering the wall must not exceed 5/8 in. (16 mm).

*Drill the pilot hole to a depth of 2.5 in. (63.5 mm)
**Maximum thickness of any material covering the stud or concrete surface.

Option 2: Installing to a solid concrete or concrete block wall

- 1 Level the wall plate (A) and mark the hole locations.
- 2 Drill the pilot holes as illustrated.
- 3 Insert the concrete wall anchors (M) into the pilot holes and make sure that the anchors are seated flush with the surface.
- 4 Align the wall plate (A) with the wall anchors, then place the washers (N) over the holes. Insert the lag bolts (O) through the washers, then tighten the lag bolts only until the washers are pulled firmly against the wall plate. DO NOT over-tighten the lag bolts (O).

CAUTION: Avoid potential injuries or property damage!

Any material covering the wall must not exceed 5/8 in. (16 mm).

3 Mount the TV to the wall

Slide the upper notches on the TV bracket over the upper flanges on the wall bracket.

HEAVY! You will need assistance with this step.

4 Remove the TV from the wall

DYNEX

IMPORTANT SAFETY INSTRUCTIONS SAVE THESE INSTRUCTIONS

CAUTION: Do not use this product for any purpose not explicitly specified by Dynex. Improper installation may cause property damage or personal injury. If you do not understand these directions, or have doubts about the safety of the installation, contact Customer Service or call a qualified contractor. Dynex is not responsible for damage or injury caused by incorrect installation or use.

The weight of your TV must not exceed 50 lb (22.7 kg). The wall must be capable of supporting five times the weight of the TV and wall mount combined.

This product contains small items that could be a choking hazard if swallowed. Keep these items away from young children!
