Align the intake tube on the back of the frame with the mouth of the inflator pump, then wrap the attached strap around the mouth of the pump and attach tightly.

Attaching the screen
• Connect the clips along the edges and corners of the frame to the screen.

Inflating the screen
After making sure that the air intake is clear of obstructions and the frame’s zipper is closed completely, plug the pump’s power cord into a power outlet. The pump turns on automatically.

Note: The pump must be left running while screen is in use.

114" Inflatable Outdoor Screen
NS-SCR117

YOU’LL NEED
• Hammer
• Projector
• Sound system (Built-in projector speakers may not provide loud enough audio outdoors.)

FEATURES
• Projector screen
• Inflatable frame
• Pump
• Tether stakes (14)

PACKAGE CONTENTS
• Projector screen
• Inflatable frame
• Pump
• Tether stakes (14)
• Pump stakes (2)
• Storage bag
• Quick Setup Guide

SETTING UP YOUR SCREEN
Attaching the pump
1 Lay the screen on top of the deflated frame with the white side up. Note: Select a location where the pump is well-ventilated and the power cord can reach a power outlet.

2 Align the intake tube on the back of the frame with the mouth of the inflator pump, then wrap the attached strap around the mouth of the pump and attach tightly.

Setting the screen upright
1 Attach the four long tethers to the upper X-shaped straps on each side of the frame (two on each side).

2 Attach the four short tethers to the lower X-shaped straps on each side of the frame (two on each side).

3 Stand the inflatable screen upright, then insert the yellow tether stakes through the tethers and use the hammer to pound them into the ground. Make sure that the tethers are taut.

4 Insert the two orange pump stakes through the plastic legs of the pump, use the hammer to pound them into the ground, to secure the pump to the ground.

Before using your new product, please read these instructions to prevent any damage.

QUICK SETUP GUIDE
114" Inflatable Outdoor Screen
NS-SCR117

Flat size (W×H): 21.2 × 11 in. (538.48 × 279.4 mm.)
Folded size (W×H): 5.3 × 11 in. (134.62 × 279.4 mm.)

• Tethers (4 long, 4 short)
• Pump stakes (2)
• Storage bag
• Quick Setup Guide

STORING YOUR SCREEN
1. Unplug the pump and open the zipper (in the back near the bottom) to deflate your screen.
2. Disconnect the air intake tube from the pump.
3. Remove the stakes from the ground and unclip the tethers.
4. Unplug the screen from the frame.
5. Close the frame and screen and store them in the included carrying case.

MAINTAINING YOUR SCREEN
Frame
• Check the product at regular intervals for any signs of damage or deterioration.
• Make sure that the connection between the inflatable and fan is not hanging near the motor during inflation.
• Check for rips in the fabric. You can hand sew rips with any type of thread or cover the tear with clear packaging inflatable screen tape.

Screen
• Make sure that the connection between the inflatable and fan is secure.
• Keep children in your direct sight, stay close, and actively supervise them when they are near this inflatable. Assign an adult to supervise the inflatable.
• To avoid electrical shock, never plug in or unplug the pump with wet hands.
• Do not leave the pump exposed to strong sunlight.

Pump
• Make sure that the pump is connected to a working power outlet.
• Check the condition of the ground stake that holds the screen in place. Damage to or deterioration of the stakes could result in the screen becoming unstable and could result in serious injury.
• Make sure that the zipper is closed.
• Make sure that the connection between the inflatable and fan is secure.

Troubleshooting
The frame will not inflate.
• Make sure that the pump is turned on.
• Make sure that the pump is turned on.
• Check the condition of the pump's power cord. Damage to or deterioration of the cord could cause a serious electrical hazard. If the cord is damaged or deteriorated, immediately disconnect the power of the pump and contact the manufacturer. To keep the power cord in good condition, hand-support the product when carrying. Do not twist the cord.

PUMP SPECIFICATIONS
• Dimensions: (deflated) H x W x D: 83 x 115 x 25 in. (210.8 x 292.1 x 63.5 cm)
• Weight: 25 lbs. (11.3 kg)
• Electrical rating: 110-120V AC, 60 Hz, 0.8A

SAFETY INFORMATION
WARNING
• Keep children in your direct sight, stay close, and actively supervise them when they are near this inflatable. Assign an adult to supervise the inflatable.
• Empty the inflatable or present access to it when not in use.
• Store the empty inflatable in a way that it does not collect water.
• Do not use in winds more than 20 mph.
• Electrical Rating:
  • All electric products: precautions should be observed during handling and use by children.
  • The pump should never be left unattended when in use. The pump is not to be used by children.
  • Do not use extension cords with this product.

Specifications
• This product is only to be used for inflating the inflatable projector screen.
• The power supply to the pump should include a grounding plug.
• The pump supply to the pump should be clearly marked, so that persons using lawn mowers or other types of equipment are aware that there is a cord on the ground.
• The pump is not to be used by children.
• No objects should cover the air intake when the pump is in use. Sand, small stones, or other objects should not be allowed to sucked into the pump.

Failure to follow these warnings and instructions can result in serious injury, death, or equipment damage.

To reduce the risk of fire or electric shock, do not use this pump with any solid-state speed control device.
• Do not operate the pump with a damaged cord or plug. Discard pump or return to an authorized service facility for examination and/or repair.
• Do not run the cord under carpeting. Do not cover cord with throw rugs, runners, or similar covering. Do not route cord under furniture or appliances.

Grounding instructions:
• This product should be grounded. In the event of an electrical short circuit, grounding reduces the risk of electric shock by providing an escape wire for the electric current. This product is equipped with a cord containing a grounding wire with an appropriate grounding plug. The plug must be plugged into an outlet that is properly installed and grounded in accordance with all local codes and ordinances.

Dock RV – Improper installation of the grounding plug can result in a risk of electric shock. If repair or replacement of the cord or plug is necessary, do not connect the grounding wire to either flat blade terminal. The wire with insulation having a green outer surface with or without yellow stripes is the grounding wire. If repair or replacement of the plug is necessary, it should be done by a qualified electrician. The wire with insulation having a green outer surface with or without yellow stripes is the grounding wire. If repair or replacement of the plug is necessary, it should be done by a qualified electrician.

Precautions:
• Do not clean the pump with a chemical solution as this may damage the coating and plastic parts. Never clean the pump in water.
• Use a dry cloth to clean the foot holes and remove debris after each use.
• The hanging fabric of a partially-inflated frame can become unstable which could result in serious injury.

Do not use in temperatures below 14°F (-10°C).

To keep the power cord in good condition, hand-support the product when carrying. Do not twist the cord.

This product is only to be used for inflating the inflatable projector screen.
Household Use Only.
Electrical current requirements: 110-120VAC/60Hz
The pump supply to the pump should not be exchanged for any other type of power supply.
The pump should never be left unattended when in use. The pump is not to be used by children.
No objects should cover the air intake when the pump is in use. Sand, small stones, or other objects should not be allowed to sucked into the pump.
Under no circumstances should a finger or any sharp object be inserted into the air intake.
The pump supply to the pump should not be exchanged for any other type of power supply.
If the pump supply is damaged, it should be repaired by a technician.
To avoid the danger of electrical shock, do not immerse the pump in water.
Do not use extension cords as this would present an electrocution hazard.
Do not use the pump exposed to sunlight.
Operation of the pump is not recommended for children under 14 years of age.
As with all electric products, precautions should be observed during handling and use by children.
Do not use extension cords as this would present an electrocution hazard.
Do not use the pump exposed to sunlight.
Operation of the pump is not recommended for children under 14 years of age.
