## 2 MAKING CONNECTIONS

### How do I watch TV (cable or satellite box) or connect a device such as a DVD or Blu-ray disc player, game console, Roku Streaming Stick™, MHL-enabled device, or camcorder?

#### Using an HDMI cable (BEST)

**Multi-purpose jacks:** You can plug any device that uses HDMI into either HDMI jack. However, certain devices must be connected to the **ARC/DVI**, or **MHL** jacks. See the instructions that came with your ARC, DVI, Roku Streaming Stick™, or MHL-enabled device for more information. **Note:** The **HDMI 2 (ARC/DVI)** jack is a shared jack. This means you can only connect one DVI or ARC device at a time.

#### Using component cables (BETTER)

- OR -

#### Using an AV cable (GOOD)

**Note:** The component and AV jacks are shared. This means you can connect only one component or AV device at a time. We suggest upgrading to HDMI if your device supports it.
