Your On Demand Medical Exam

**Your On Demand, Ear,  
Skin, Abdominal, Heart, Lung,  
Throat Medical Exam.**

**Always know with Tyto.**

## Sick? Or really sick?

When your family is sick, you want all the information you can get.

That's why we created TytoHome™, a hand-held exam kit and app that you use from home. Tyto lets you capture and share exam data with a board-certified doctor and receive a consult, diagnosis, and a prescription if needed. So you have the information you need to take the best care of your family.

**Always know with Tyto.**

## To ER or not to ER?

It's 2.17 am and your child can't stop crying. Is it serious? Or what if it isn't? Do you need to rush to urgent care, the hospital, or neither?

Is it worth risking a germ-infested waiting room? Tyto helps answer those questions by connecting you directly with a doctor for a medical exam. Right when you need it. Right from home.

**Always know with Tyto.**

## Another ear infection? Or parental overreaction?

Some kids seem to get sick all the time, with ear infections, pink eye, fevers, rashes, cold, cough, or some good old fashioned congestion. Tyto enables the doctor to diagnose those common conditions without having to go all the way to the office. Again.

**Always know with Tyto.**

## A medical exam from anywhere.

Heart

Lung

Throat

Skin

Ear

Abdomen

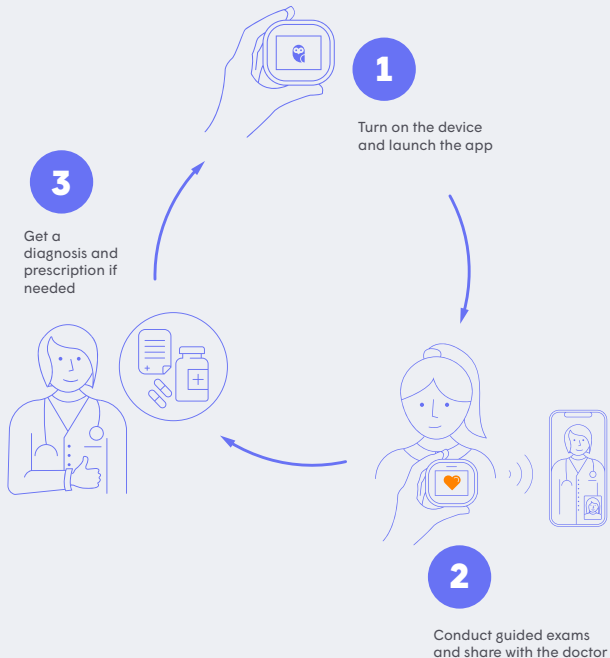

Basal Thermometer

Heart Rate

Tyto uses high resolution digital sound and video to capture heart and lung sounds, ear, throat and skin images, heart rate and body temperature. It gives your doctor the right data to give you the right diagnosis.

# The easiest way to connect with a board-certified doctor

# Designed to help you know more.

You probably haven't performed a medical exam before. But that's ok. Tyto uses guidance technology to take you through every step to ensure you're doing things right.

Tyto is working with the best physician networks in the country.\* The doctors are highly experienced, board-certified medical professionals from many of the top health systems. Tyto uses a HIPAA-secure platform that only you and the doctor can access, so you can be certain your information is safe and secure.

FDA Cleared

HIPAA-Compliant

Board-Certified Doctors

The Tyto Stethoscope is FDA cleared and all TytoCare devices comply with FDA regulatory requirements.

\*Visits with a physician are \$59 or less, depending on your insurance provider.

### To use Tyto you need:

- A smartphone or tablet with iOS (last 2 versions) or Android OS 4.4.4 or above
- A Wi-Fi internet connection

TytoHome™ includes the Tyto Stethoscope, Tyto Otoscope, Tyto Basal Thermometer, and Tyto Exam Camera .

The Tyto Stethoscope should be operated by adults, 18-65 years of age, who are comfortable using mobile apps. If you wear glasses or hearing aids please wear them while using the Tyto Stethoscope. A medical diagnosis should only be provided by a physician.
