## Burr Grind & Brew™ 10-Cup Coffeemaker

Leave it to Cuisinart to make delicious, freshly ground, freshly brewed coffee an even nicer experience. The Grind & Brew 10-Cup Coffeemaker features an innovative DirectFlow grind assembly that seamlessly moves coffee through the professional-style burr grinder right into the brew basket. An AutoRinse feature makes sure all coffee grounds enter the brew basket to make clean-up exceptionally easy! Grinds just the amount of beans needed, to the number of cups selected. Intuitive controls offer three flavor strengths and a large display provides a clear view of customized selections. It's innovative coffeemaking technology – and Cuisinart – at their very best!

- 10-cup thermal carafe with comfort-grip handle
- Professional-style burr grinder for uniform consistency
- DirectFlow grind assembly seamlessly dispenses grounds directly into the brew basket
- AutoRinse ensures all the coffee grounds enter the brew basket
- Half-pound bean hopper with sealed lid - keeps beans fresh
- Flavor strength options – regular, bold or extra-bold
- Grind control – program for 4 to 10 cups
- Grind-off feature lets you use pre-ground coffee
- Extra-large LCD display and intuitive operation
- 24-hour brew start
- Gold-tone commercial-style permanent filter
- Charcoal water filter removes impurities
- Brew Pause™ feature lets you enjoy a cup before brewing is finished
- Limited 3-Year Warranty
