PRYNT

PRYNT POCKET

Print Photos Instantly From Your Phone

REVIEWER'S GUIDE

The Prynt Pocket turns your iPhone into an instant camera. Print and share anything saved to your phone or favorite social networks! But there's more. The Prynt app allows you to add a video inside your photo. When you hand your Prynt photo to a friend, they can use the Prynt app to reveal the video inside with Augmented Reality!

LET'S GET STARTED!

THE REVIEW UNIT

Your Prynt Pocket Review Unit Includes:

- Prynt Pocket device
- Paper Cartridge
- 10-pack of ZINK Sticker Paper
- MicroUSB Cable
- Magic

GETTING STARTED

The App

Download the [Prynt app](#) for your iOS device to start printing.

Charge your device

The Prynt Pocket will typically print 20 photos on one charge. We recommend giving the device a full three-hour charge before use.

Taking your first Prynt Photo: The Prynt Pocket is automatically turned off and on when your phone is connected.

1. Connect your phone: The cool thing about Prynt Pocket is that the device is compatible with almost every iPhone. To connect your phone, press and slide the adjustment button to open the clamps. Then, simply attach your phone to the lightning connector until your phone is nice and snug.
2. Download the Prynt app: (If you haven't already)
3. Load paper: Remember the days of messy ink cartridges? Well, those are over. The Prynt Pocket uses magic inkless ZINK Paper. Each sheet of paper is also a sticker.
   a. Load Paper Cartridge: Get your paper and paper cartridge ready.. Remove cap from the cartridge and open cartridge door. We've included images to help you with this on the next few pages. Place the 10-pack of paper inside the cartridge with the barcode of the bluesheet showing, followed by paper glossy side facing the metal spring.
   b. Insert Paper Cartridge: Insert the cartridge into the slow at the top of the device, lining up with the arrows. Hear a click? You're set! See helpful graphics on the following pages .
   ** Why is there a blue sheet in my pack of paper?** This sheet calibrates the device and cleans the paper head, giving you the best possible photo quality.
4. Launch app and follow onboarded steps: Our app takes you step-by-step to print your first photo.

What can I print?

1. Any photo from your phone: Choose any photo from your library or shoot in real time.
   ** Edit your Prynt Photo - add filters and text!

2. Photo + Video: Take a photo, followed by a short video. The video saves to the cloud, allowing anyone with the Prynt app to scan the photo - bringing it to life with Augmented Reality! Just tap the play icon at the bottom of the app and hover your phone over the photo. It's like magic!

What is the video feature?
The Prynt Pocket is not your average instant camera. The Prynt app allows you to embed a video inside your photo, using Augmented Reality. When you hover over the phone using the app, the video plays - bringing your photo to life. Try it for yourself!

Wheel & Shutter Button
The Prynt Pocket transforms your phone into an instant camera. Zoom in and out by placing your finger on the wheel and scroll left/right. Press the shutter button down to take a photo.

Helpful tips
We put together some tips for you to keep in mind while you have fun with your Prynt Pocket.

- If the blue sheet is loaded, it will print before the photo.
- Don't remove your phone when the device is printing.

When connected to a standard outlet, a full charge takes about 3 hours.
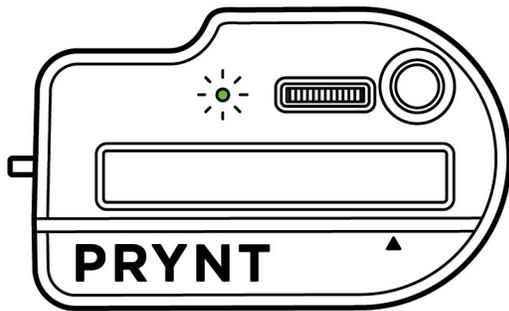

2 Plug the microUSB cable into the device and connect to power source.

BATTERY LIGHT INDICATOR

🟢 **100-75%:** Green

🟠 **75-25%:** Orange

🔴 **25-0%:** Red

⚫ **0%:** No light, Off

LOADING PAPER CARTRIDGE

1 Remove cap from cartridge.

2 Open cartridge door by pulling piece outwards.

3 Get paper ready. Place the 10-pack of paper inside the cartridge, with barcode of the blue smartsheet showing, followed by paper, glossy side facing metal spring.
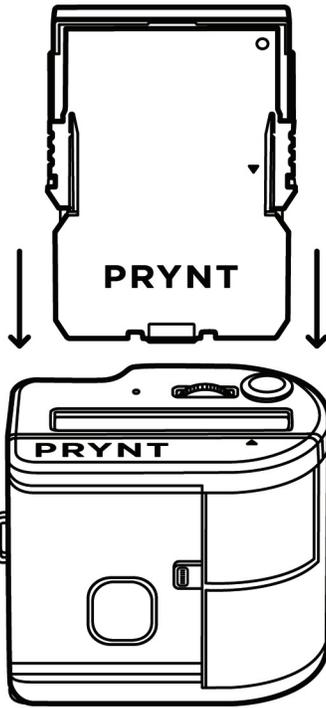

4 Close cartridge door (you will hear a click).

HELPFUL TIP

Do not load more than 10 sheets of paper at one time.
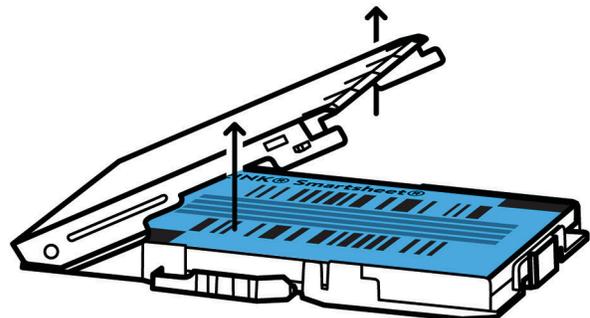

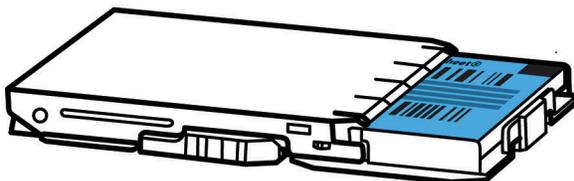

## INSERTING PAPER CARTRIDGE

1 Insert cartridge into the slot at the top of the device, lining up the arrows.

2 A click sound will indicate that the paper cartridge is inserted full.

HELPFUL TIP

If phone is not connected, see **Connecting Your Phone** section.

RELEASING PAPER CARTRIDGE

1 Release paper cartridge by gently squeezing ridges.

2 Lift ridges to release paper cartridge from device.

HELPFUL TIP

If not printing right away, place cartridge cap on cartridge to protect paper.

TAKING YOUR FIRST PRYNT PHOTO

1 Download the Prynt app.

Available on the **App Store**

2 Connect your iPhone to the Prynt Pocket. (See **Connecting your iPhone** section).

3 Load paper cartridge. (See **Loading Paper Cartridge** section).

4 Insert paper cartridge into the device. (See **Insert Paper Cartridge** section).

5 Launch Prynt app and follow the onboarding steps.
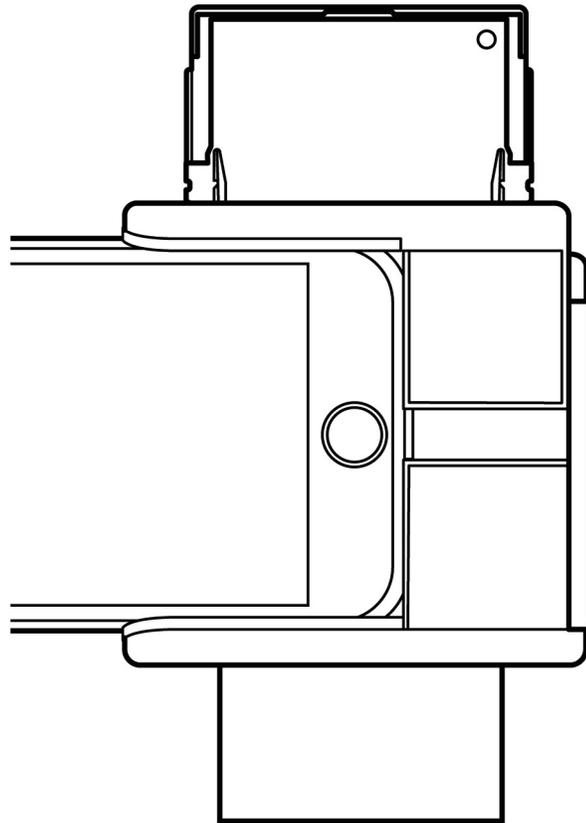

WHEEL FUNCTIONALITY

Zoom in/out by placing finger on wheel and scroll left/right.

PRYNT
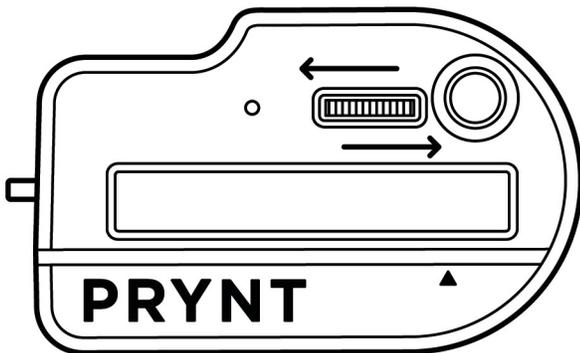

SHUTTER BUTTON

Press the shutter button down to take a photo.

⁘ HELPFUL TIP
Photo indicator light will blink while taking a video.

PRINTING TIPS

Do not remove phone when device is printing.

Allow enough space underneath the device;
This is where your photo will exit.

If the Blue Smartsheet is loaded, it will print
before photo.

HELPFUL TIP

The Blue Smartsheet cleans the print head. Your
photo will immediately follow. When printing,
battery light indicator will slowly blink green.
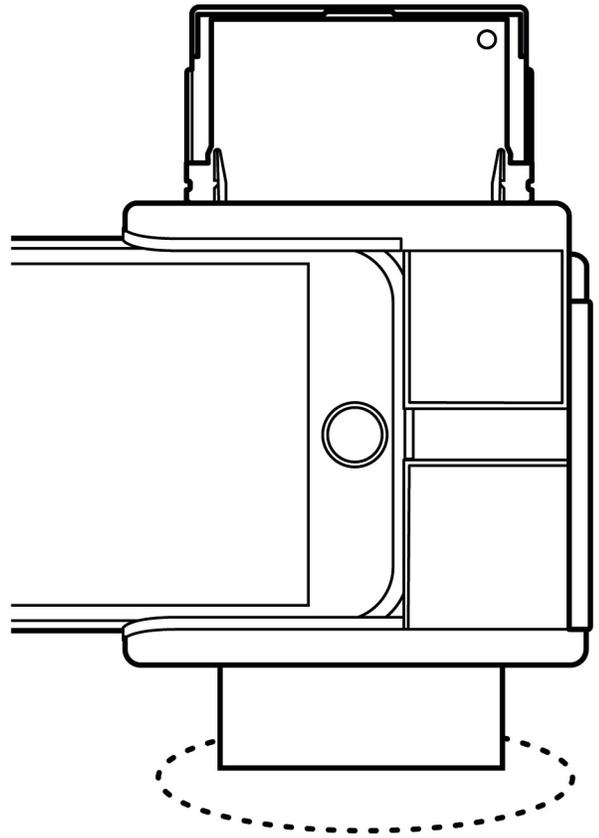

HOW TO SCAN

1 Download the Prynt app.

Available on the
App Store

2 Tap the scan icon.

3 Hold your phone over the Prynt
Photo to scan.
