VMAX Mobility – Product Disclaimer (UL 2272 E-Scooters, NYC & USA)

LEGAL NOTICE (Not Legal Advice)

This e-scooter is UL 2272-certified by an NRTL. You must comply with all applicable federal, state, and New York City laws and FDNY lithium-ion battery safety guidance.

SCOPE

- Applies only to VMAX Mobility e-scooters with valid, documented UL 2272 certification.
- Any unauthorized modification, repair, or part substitution may void the certification and warranty.

SAFETY & CHARGING

- Use only VMAX Mobility-approved batteries, chargers, and parts.
- Do not charge unattended or overnight. Plug directly into a wall outlet, in a dry, ventilated, non-flammable area.
- Stop use and contact authorized service if the battery overheats, swells, emits odor, is damaged, impacted, or exposed to liquids.
- Do not rebuild/modify the battery or electrical system yourself.
- Dispose/recycle batteries only through authorized facilities and as required by local law.

COMPLIANCE & DOCUMENTATION

- Keep proof of UL 2272 certification and provide it to authorities upon request.
- Operators/fleet owners must implement compliant charging, storage, and maintenance practices consistent with FDNY/NYC rules.

LIMITATION OF LIABILITY

VMAX Mobility is not liable for any loss, injury, or damage resulting from misuse, non-compliance with applicable laws or FDNY guidance, improper charging/storage/transport, or the use of unauthorized parts/repairs.

USER ACKNOWLEDGMENT

By purchasing/using this e-scooter, you confirm that you have read, understood, and will follow this disclaimer, the user manual, and all applicable regulations.
