

65W USB-C Wall Charger + 100W USB-C to C Cable

USER MANUAL

Product Overview

Specifications

Model for Wall Charger	A3I-P1
Model for Cable	CIH-P1
Quantity	Wall charger *1; USB C to C cable*1
Input	100~240V 50 / 60Hz 1.7A (max)
Output	USB-C: 5V \approx 3A, 9V \approx 3A, 12V \approx 3A, 15V \approx 3A, 20V \approx 3.25A (65W max) USB-A: 5V \approx 3A, 9V \approx 2A, 12V \approx 1.5A (18W max) USB-C+USB-A: 45W+12W (57W max)
Charging Speed for Cable: 100W (max)	
Fast Charging Protocol	PD3.0, QC2.0, QC3.0, AFC, FCP, PPS, etc.
Size	Charger: 2.1*2.0*1.2in / 5.4*5.3*3.1cm
Weight	Charger: 4.3oz / 129g Cable: 1.2oz / 33g
Cable Length	3.3ft / 1m

3-Year Warranty

Using Your Wall charger

Note: Requires fast charging cable and device for quick charge.

Attention

1. For the fastest and safest charging, use your device's original cable or a certified one from INIU or other trusted brands.
2. Do not expose the charger to liquids.
3. Do not disassemble the charger.
4. Keep the charger away from extreme temperatures.
5. Clean the charger only with a dry cloth or brush.

MADE IN CHINA

CONFORMS TO
UL STD 62368-1
CERTIFIED TO
CSA STD C22.2
5019157
No. 82368-1

Operating temperature: 0 to 25°C (32 to 77°F)
Operating Humidity: 10 to 90%
Storage temperature: -30 to 70°C (-22 to 158°F)
Storage Humidity: 10 to 90%
Altitude during operation: up to 2000m (6562 ft)

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To comply with the published safety standards, the following must be observed when using this power supply.

1. The output power taken from the supply must not exceed the rating given on the "Electrical parameters".
2. The power supply is approved and certified for the rated voltage range 100-240 Vac.
3. The disconnection from line voltage is made by AC plug.
4. This unit can be used together with an Audio / video and communication technology equipment.
5. The socket-outlet shall be installed near the equipment and shall be easily accessible.
6. The power supply is not intended to be repaired by Service personnel in case of failure or component defect (unit can be thrown away).
7. For use with mobile phones, tablets, power banks, handheld game terminals, cameras of Apple, Samsung, Huawei, Xiaomi, Oppo, Vivo and other brands

	RECYCLING This product bears the selective sorting symbol for Waste electrical and electronic equipment (WEEE). This means that this product must be handled pursuant to European directive 2012/19/EU in order to be recycled or dismantled to minimize its impact on the environment. User has the choice to give his product to a competent recycling organization or to the retailer when he buys an new electrical or electronic equipment.
	AC voltage
	DC voltage
	This unit is designed for indoor use only
	This equipment is a Class II or double insulated electrical appliance. It has been designed in such a way that it does not require a safety connection to electrical earth.
