

Key Features

Advanced LED Light Source | 360-degree projection with Smart Stand |
Dual Harman Kardon Bluetooth Speakers | Smart TV Enabled | Hours of
Entertainment

Product Description

The ViewSonic® M1+ is an ultra-portable WVGA LED projector that delivers convenient entertainment in nearly any room. With a built-in battery and over 30,000 hours of operational life, this projector will deliver years of multimedia entertainment wherever it goes. Weighing less than two pounds, the M1+'s compact and lightweight design makes it ideal for moving from room to room, or for indoor/outdoor usage. An integrated smart stand provides for simple 360-degree setup, while also doubling as a lens cover. Once the lens is uncovered, the projector automatically powers on with full brightness for instant entertainment. The lens also includes a safety auto-off feature that powers down the projector when objects are detected too close to the lens. Dual Harman Kardon Bluetooth speakers provide crisp and clear sound for multimedia content, while a short throw lens can display large images in small spaces. Versatile connectivity options include a MicroSD card slot, USB Type-A and USB Type-C. What's more, integrated smart Wi-Fi connectivity lets you stream and binge from your favorite content providers like YouTube – making the M1+ a great option for sharing and displaying videos and other multimedia content.
