

Zhiyun-Tech Smooth-Q

Highlights

The Zhiyun-Tech Smooth-Q is a professional 3-axis handheld gimbal stabilizer for most smartphones (measuring between 2.2 and 3.3" in width). The Smooth-Q features pan following, locking, and following modes, and offers 320° tilt, 320° roll and 360° pan rotation.

The Smooth-Q is ergonomically constructed with special made high molecular compound material. The Smooth-Q is designed with short-circuit, reverse, and over-discharge protection that ensures continued safe start-up. This stabilizer is powered by built-in Lithium polymer batteries which provides up to 12 hours of runtime.

The Smooth-Q also has a 1/4"-20 mounting thread on the bottom that allows you to use it with support gear such as monopods.

Features

- 3-axis handheld gimbal stabilizer for smartphones
- Smartphones between 2.2 & 3.3" in width supported
- 320° tilt, 320° roll and 360° pan rotation
- 4-way joystick
- Control smartphone camera record, zoom and other operations via Bluetooth
- 12 hour run time
- Built-in charging port to charge your smartphone
- Available in 4 colors - Black, Gray, Gold, Rose Gold

Specifications

- Battery: Built-in Lithium polymer battery
- Tilt Axis Range: 320°
- Roll Axis Range: 320°
- Pan Axis Range: 360°
- Dimensions:
 - Length: 4.13" (115mm)
 - Width: 4.64" (34.5mm)
 - Height: 11.22" (285mm)
- Weight: 15.9 oz.
- Load Capacity: 7.7 oz.

Product design and specifications subject to change without notice.
