MI-7916 is compatible with most monitors or laptops, up to 33 lbs.

Height-adjustable between 6.5" to 18" from the desktop so you can find the perfect height

Gas spring tension arm moves the sit-stand converter with ease

Improve ergonomics by turning your desk into a sit-stand workstation

OVERVIEW

The MI-7916 sit-stand desk converter will help you improve circulation by leaving you more alert and productive. Easy to use, just raise and lower the desk with the lever and the gas spring mechanism will raise it to your desired height. This desk converter has plenty of space for your monitor and desk accessories. Height-adjustable between 6.5" to 18" from the desktop so you can find the perfect height. Cable management insert helps you keep your office tidy.
