

Question	Answer
How is Chamelو different?	At Chamelо, our goal is to pioneer a new era in the eyewear industry by fusing state-of-the-art technology with cutting-edge style. All our eyewear changes tint or color instantly, either manually, automatically or both. We empower wearers to see beyond 20/20, revolutionizing the way people experience the world.
What's the difference between the three collections?	While everyday pair of Chamelо sunglasses is made with revolutionary tech, we have 3 collections at that all serve a different purpose. Sport: Tint-changing performance sunglasses Everyday: Tint-changing lenses for everyday style Prismatic: The world's first color changing sunglasses
Which pair of glasses is right for me?	Depends on what you plan to use them for! For those intense workouts or outdoor adventures, check out our tint-adjustable Sport collection. If you're looking to turn heads with a pair of our color-changing glasses, you'll love the Prismatic collection. And if you just want a versatile pair of shades that go with every look, our Everyday glasses are exactly what you need.
What is the technology behind Chamelо?	Chamelо leverages liquid crystal film technology to create next-generation smart eyewear. All our eyewear changes tint or color instantly, either manually, automatically or both. Whether navigating the bright conditions of an outdoor adventure or looking to elevate your personal style, we've got a pair for you.
Do you offer prescription lenses?	Not yet! However, we've heard your feedback and we are working hard to bring prescription Chamelо lenses to you soon.
Do you offer a warranty/guarante?	Yes, at Chamelо we understand that things don't always go according to plan. That's why we offer a robust warranty policy on our products, including a 1-year warranty.
