Final fold size: 2.625 × 2.75 in. (66.46 × 69.85 mm)

ATTACHING YOUR SCREEN PROTECTOR

- 1 Wipe down the surface area you are working on to remove residual dust, and then clean your device screen thoroughly with the wet cloth, then with the superfine dry cloth. Use the dust removal adhesive to clean any remaining debris. Do not use any solvents.

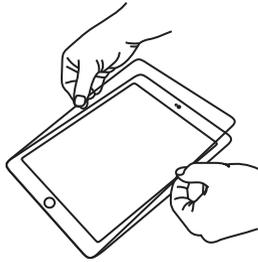

- 2 Remove the adhesive backing from the screen protector.

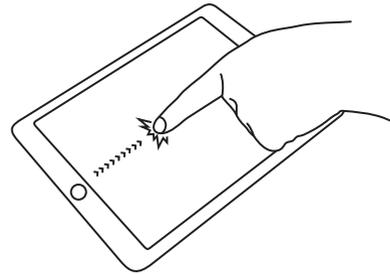

3 With the adhesive side of the screen protector facing the device screen, line up the home button and the camera hole with the cut-outs in the screen protector and place one edge onto the screen. It will begin to adhere to the device screen.

4 Push out any bubbles with your finger or the provided polishing cloth. Start from the center of the protector and work your way to the edges.
