

SENNHEISER

IE 200

Your invitation to
a new world of sound.

Your invitation to a new world of sound.

Why not make balanced, high-fidelity sound available to everyone, no matter where they are?

The IE 200 is Sennheiser's answer. Whether you're a lifelong audiophile — or you just want better sound on the road — these exceptionally neutral and precise earphones reveal an entire world of new detail.

AUDIOPHILE SOUND

The 7mm extra-wide band True Response transducers eliminate distortion for neutral, true-to-life voicing and impactful bass without peaks or troughs. This dynamic driver reproduces transients with great precision across the entire frequency range — so you can hear exactly what the sound engineer intended.

PATENT-PENDING DUAL-TUNING FEATURE

In tuning IE 200, our engineers pulled out all the stops to achieve a diffuse-field equalized response that comes exceptionally close to the ideal. The “bathtub sound” audiophiles have no patience for is completely eliminated with these exquisitely neutral in-ears. When it comes to bass, preferences vary a lot, hence the design allows switching between *powerful bass* and *open, analytical tuning*. Simply mount the ear tips in one of two positions to determine how much low end reaches your ears.

PRECISION ASSEMBLY

The Irish-made transducers of German design are manufactured by “Sennheiser consumer hearing” using an advanced process to minimize unit-to-unit variation of the miniature dynamic drivers; the acoustic fleece smoothens treble for fatigue-free listening; the polymer blend diaphragm ensures ultra-fast transient response and clarity.

PERFECT FITTING

Compact dimensions with adjustable ear hooks and selection of silicone and memory foam ear adaptors in 3 sizes (S/M/L) to fit any ear. Comfortable, appealing, classy, minimal aesthetics.

BRAIDED CABLE

Extremely reliable and optimized for low body noise - with 3.5 mm gold-plated MMCX connectors.

Technical Data

	Short name	Article no.	EAN	UPC
Main SKU	IE 200	700249	4260752331098	810091270813
SPACC	MMCX Microphone Cable 3,5mm Plug*	700259	4260752331210	810091271117

* The MMCX Microphone Cable is an accessory that is sold separately.
Please refer to the sales presentation for additional accessory details (cables, silicone and foam ear tips).

Product Specifications

General Data

Ear coupling	Ear canal
Transducer principle	Dynamic
Transducer size	7mm
Acoustic principle	Closed
Jack plug	3.5 mm angled
Cable length	1.2 m
Weight (headphone)	4 grams

Headphones

Frequency response	6 - 20,000Hz
Impedance	18 Ω
Sound pressure level (SPL)	119dB (1kHz, 1Vrms)
Total harmonic distortion (THD)	<0.08 %

Other Details

Country of origin	China
Customs tariff code	85183000

IE 200

Packaging Specification

Packaging

Packaging type	Carton
Dimensions product packaging (L x W x H)	128 x 57 x 222 mm
Weight of headphone with packaging	100 g
Dimensions of outer master carton (L x W x H)	300 x 275 x 250 mm
Number of products per outer master carton	10
Total weight of outer master carton & products	1,975 g

WEEE packaging information

Material of single package (incl. weight)	Paper: 78.5 g; Plastic: 19.5 g; Composite: 2 g
Material of outer master carton (incl. weight)	Paper: 470 g
WEEE Weight (Net Weight)	20 g

What's in the box

- IE 200 Earphones
- Braided Cable with MMCX Connectors and 3.5mm Plug
- Silicone and Memory Foam Sets (S, M, L)
- Pouch
- Safety Guide
