## KEYSTONE DD7L JUNIOR DESICCANT DEHUMIDIFIER

*The multi-award winning range of  
domestic dehumidifiers from British dehumidifier  
experts Meaco are now available in the USA and  
Canada in conjunction with Keystone*

## WHY DESICCANT?

Desiccant dehumidifiers are different because they can work in all temperatures with a consistent performance **right down to 32°F!** Unlike compressor dehumidifiers there is no compressor, which means no refrigerant is required, making them **greener, lighter and quieter than a compressor dehumidifier.** This Keystone desiccant dehumidifier is great for use in:

- Unheated spaces
- Garages for cars, bikes and tools
- RV, boats and campers
- Bedrooms
- Basements
- Crawl spaces
- Anywhere a quieter, lighter dehumidifier would be useful

The Keystone DD7L Junior desiccant dehumidifier features;

- Variable humidistat at 40, 50 and 60%rh
- Laundry mode
- Off timer
- Unique Meaco Control Logic
- Class-leading safety technology

All of the above great features are backed by **Keystone's two year parts and labour warranty.** For more details on what makes desiccant dehumidifiers different and to learn more visit [www.meacousa.com](http://www.meacousa.com).

## SPECIFICATIONS

Type of Dehumidifier	Desiccant
Humidistat	40/50/60%rh
Meaco Control Logic	Yes
Off Timer	Yes
Fan Speeds	3
Filter Type	Standard dust filter
Continuous Drainage	Yes
Hose in the Box	Yes
Tank Size (pints)	4.22
Anti-Spill Tank Cover	Yes
Power Supply	120V/60Hz
Operating Range	41.....99°F and 30% to 90%rh
Net Dimensions (HxWxD in ")	19.7 x 13.08 x 7.4
Net Weight (lbs)	14.93
Gross Dimensions (HxWxD in ")	23.03 x 15.94 x 9.92
Gross Weight (lbs)	18.37

## EXTRACTION RATE DATA AND ENERGY USE

Room Conditions	Maximum Water Extraction (pints)	Wattage	Decibels at 1 meter
68°F and 60%rh - fan speed 1	7.31	321	38
68°F and 60%rh - fan speed 2	13.69	617	45
68°F and 60%rh - fan speed 3	14.14	626	50
50°F and 60%rh - fan speed 1	7.29	321	38
50°F and 60%rh - fan speed 2	11.34	620	45
50°F and 60%rh - fan speed 3	13.08	626	50
