

Honeywell Home

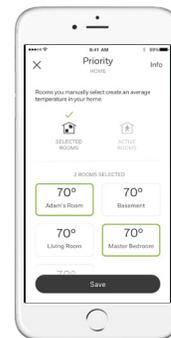

Smart Room Sensor

For use with T9 Smart Thermostat

Sleep and live smarter.

With Smart Room Sensors, your thermostat can know the temperature in the rooms you want – like the bedrooms, to help make home more comfortable for a great night's sleep.

* T9 & Phone App required to be used with Smart Room Sensors

Smart Room Sensor

Smart Room Sensors help you experience the right temperature in the right rooms. Get whole home temperature control based on room occupancy, or prioritize specific rooms. Simple and discreet, these battery powered sensors have a long range to control the whole home. (To be used with T9 Smart Thermostats)

Whole Home Control

Smart Room Sensors have a range up to 200 feet* and a 1-year battery life.† Install them practically anywhere.

People Detection

Smart Room Sensors can know when a room becomes occupied and automatically adjust the temperature.

Balance Hot and Cold Spots*

Add Smart Room Sensors to your system and balance the temperature of multiple rooms, creating a more comfortable home.

* Requires T9 Thermostat
