Jay Ashby These colours are fantastic!

# Libraries present a more **specific choice** for each subject area.

In the new version each theme is presented with a divertsity of options.

Libraries now include
Colors & Gradients

Gradients are essential when you colorize portraits and other objects **that present a mixture of colors.**
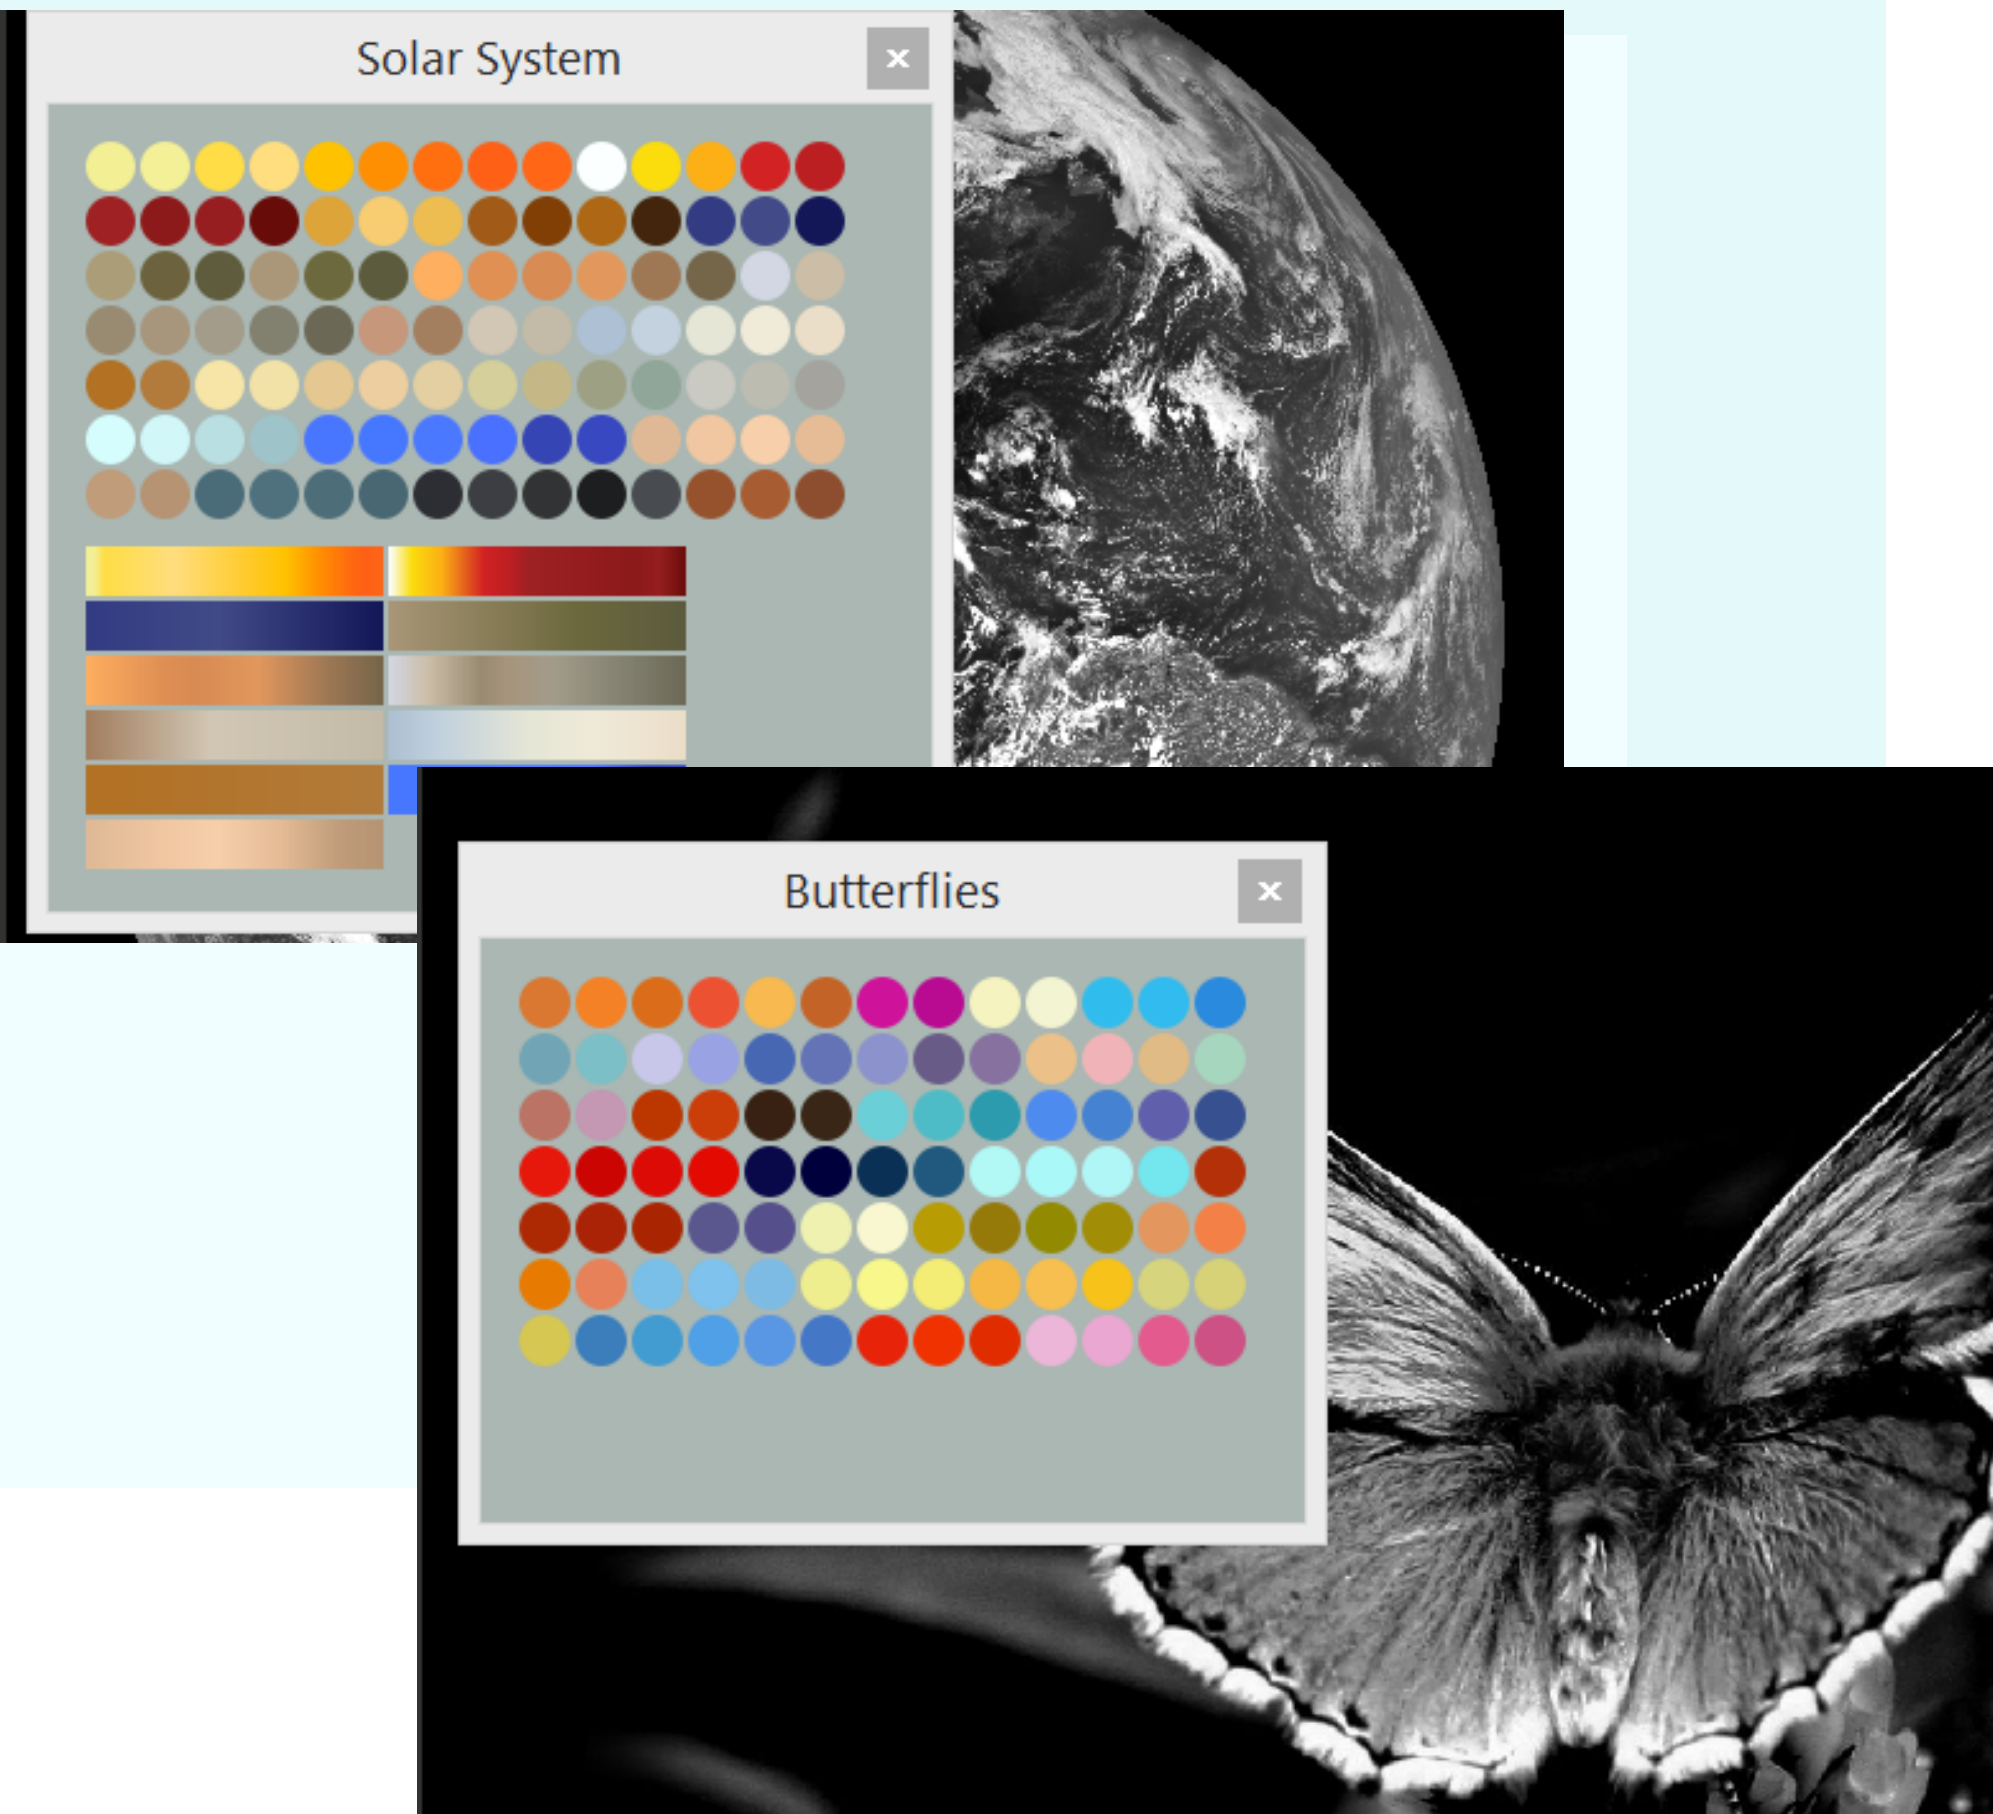

Ready gradients in new libraries will help you master multi-color masks and offer quick choices for most common objects.

New exciting themes suggested

New libraries offer ideas on new subjects for colorization.

- **VINTAGE CARS**
- **STREET LIFE**
- **MILITARY**
- **SPACE**
- **SOLAR SYSTEM**
- **FOOD, FRUIT & VEGATABLES**
- **WILDLIFE**
- **PETS**

Bernie Watts Thanks for the new upgrade. This is the sort of support that keeps CODIJY ahead of the pack. Well done Vera and team.
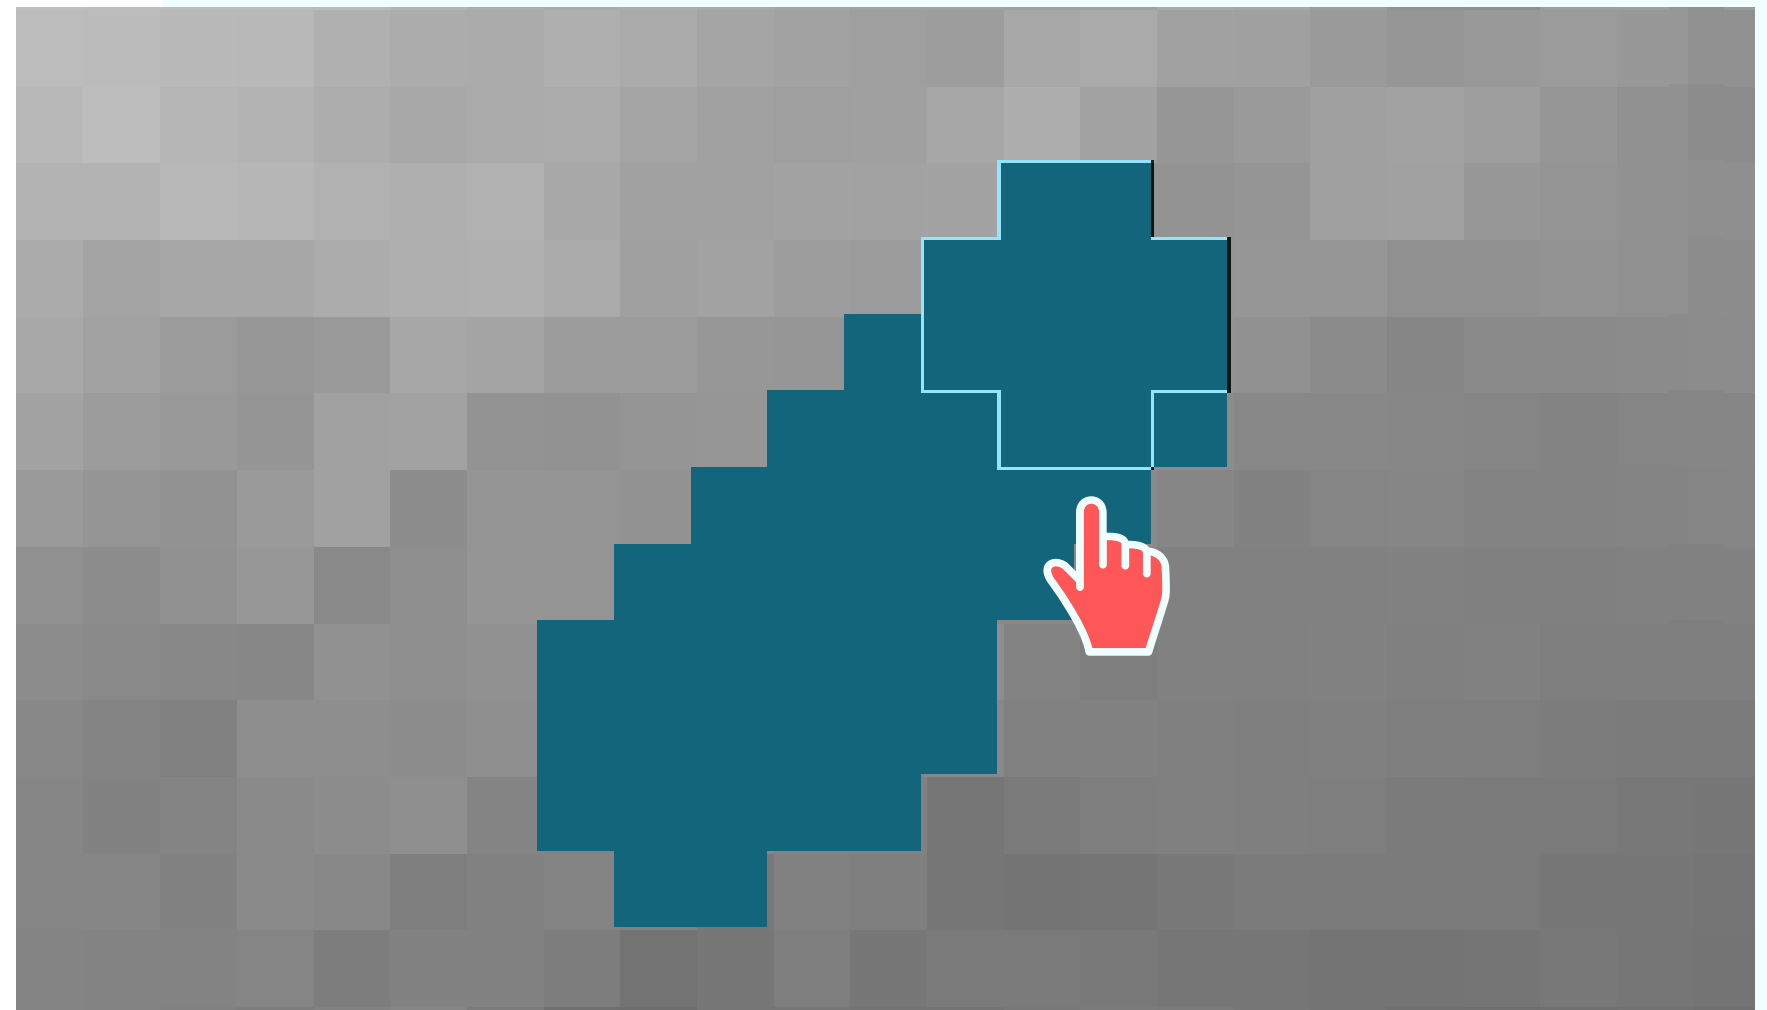

Add **Color Masks** with ultimate precision

One-pixel size strokes now perfectly snap to pixels.
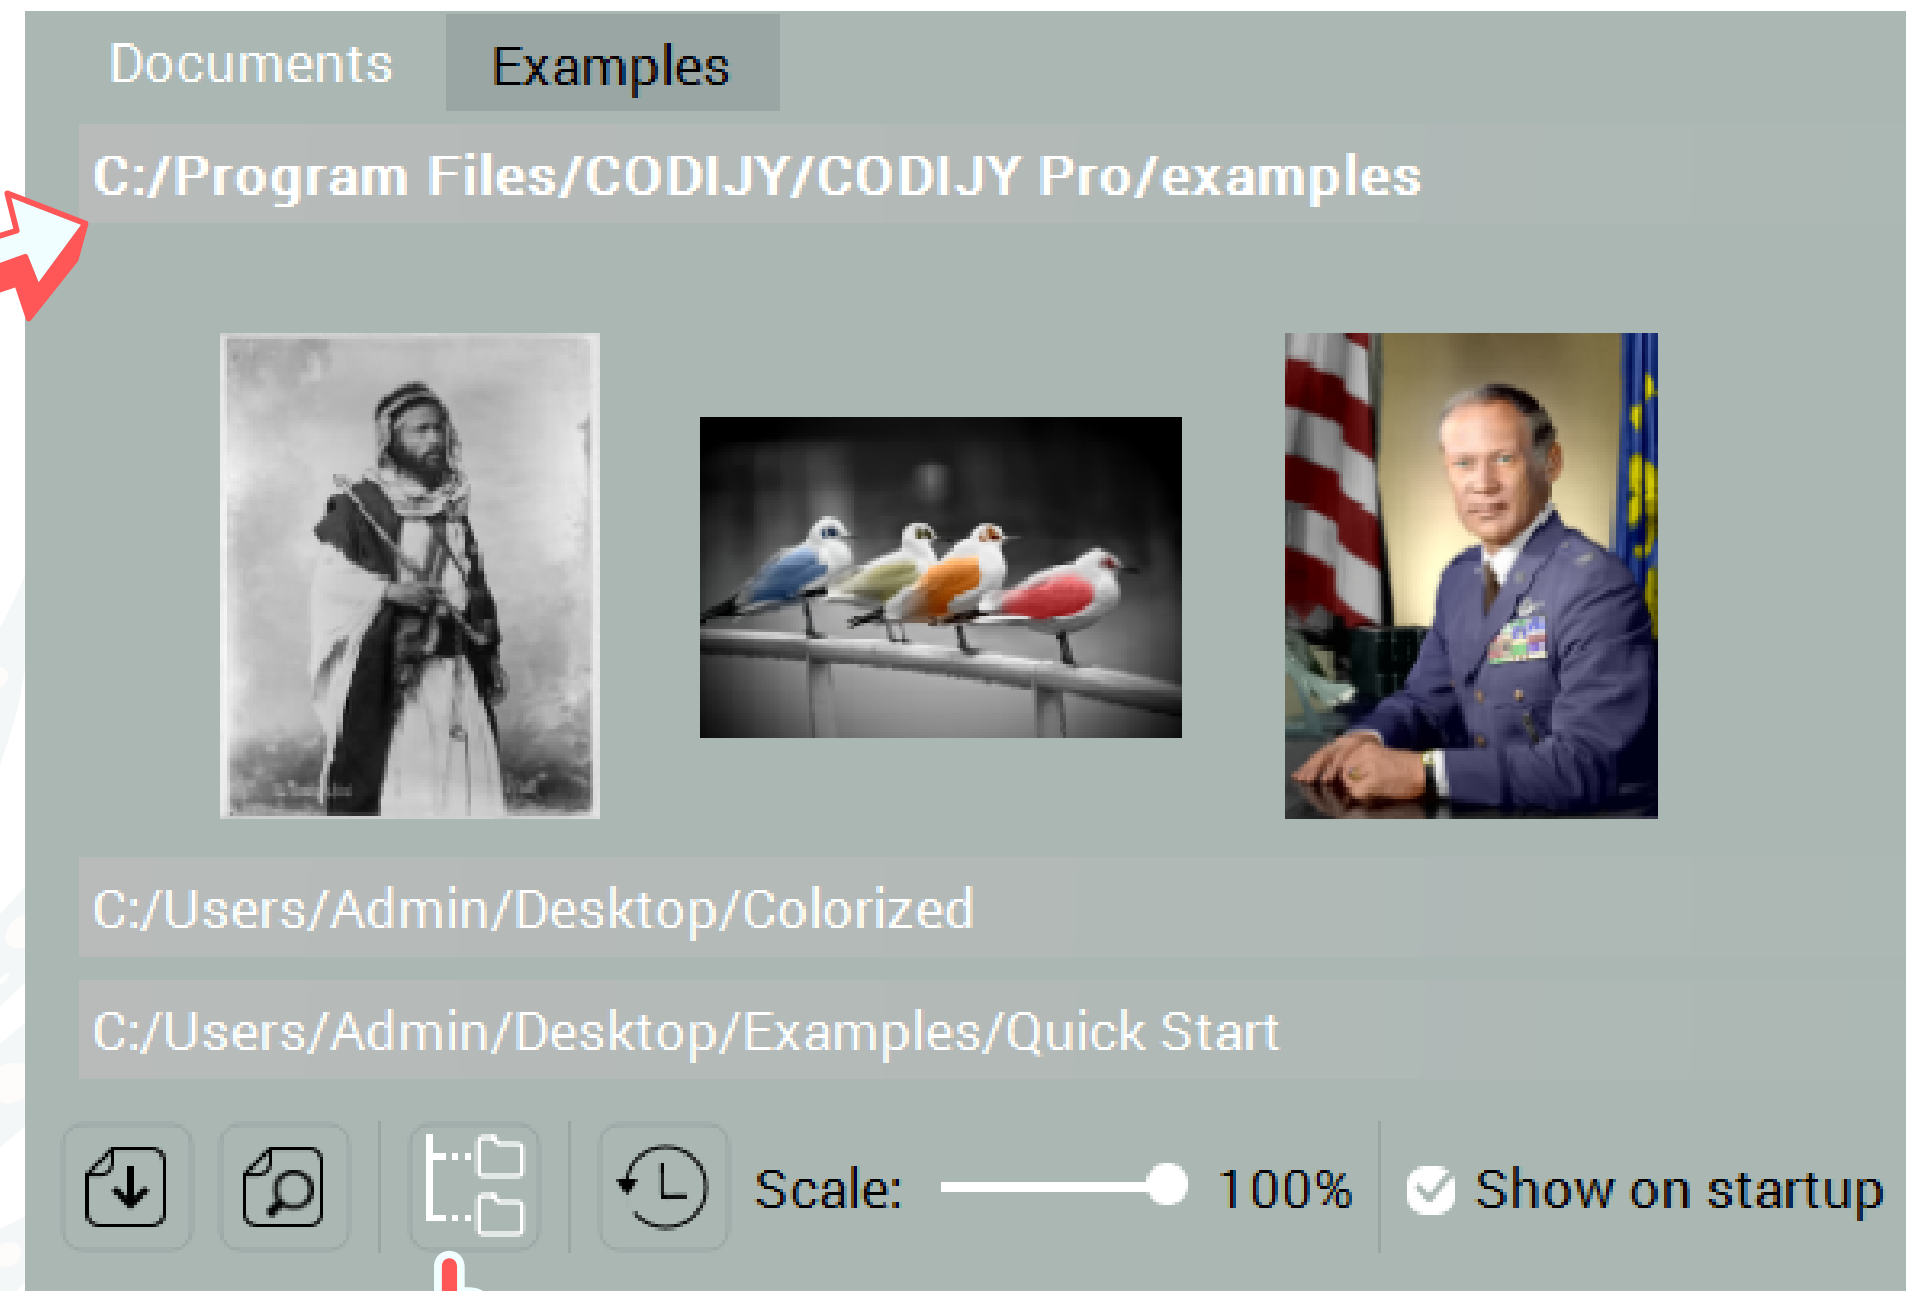

Cursor displays the area it covers

When adding masks in pixel-size scale, the cursor changes its shape to show the area (Pixels) it covers.
